XiVA™ NEW MEDIA BROUGHT TO LIFE

XiVA™ is a highly portable software framework that powers next-generation media appliances. XiVA™ blends hard disk technology, advanced software design, and embedded Internet technology to provide amazing features; audio, video, text, graphics, and all forms of streaming new media are all brought to life through a wealth of interactive user interface options. The next generation media appliance is powered by XiVA™.

PRECAUTIONS

GENERAL PRECAUTIONS

When installing the equipment ensure that:

- the ventilation holes are not covered.
- air is allowed to circulate freely around the equipment.
- it is placed on a vibration free surface.
- it will not be exposed to excessive heat, cold, moisture or dust.
- it will not be exposed to direct sunlight.
- it will not be exposed to electrostatic discharges.

In addition, never place heavy objects on the equipment.

If a foreign object or water does enter the equipment, contact your nearest dealer or service center.

It is advisable when leaving the house, or during a thunderstorm, to disconnect the equipment from the mains supply.

WARNINGS

TO REDUCE THE RISK OF FIRE OR ELECTRIC SHOCK, DO NOT EXPOSE THIS APPLIANCE TO RAIN OR MOISTURE.

Do not remove the cover from the equipment. There are no user serviceable parts inside, and opening the case will invalidate your warranty.

Do not pull out the plug by pulling on the mains lead; grasp the plug.

Do not remove the cover from the equipment.

Do not insert anything into the equipment through the ventilation holes.

Do not cover the ventilation holes with any items such as tablecloths, newspapers, curtains, etc. To avoid overheating do not position the SoundServer near heat sources, and ensure that the ventilation holes are not blocked.

Do not place naked flame sources, such as lighted candles, on the equipment.

Do not handle the mains lead with wet hands.

Allow adequate ventilation. Leave a gap of 0.1m on all sides of the unit.

Do not splash or spill water on the unit. Do not place objects filled with liquid (such as vases) on the unit.

CAUTION: This product contains a lithium battery. Danger of explosion if battery is incorrectly replaced. Replace only with the same or equivalent type recommended by Imerge. Dispose of batteries according to the manufacturer's instructions.

CD HANDLING PRECAUTIONS

- Handle discs carefully so as not to damage or scratch the front side. Always keep the disc surface clean.
- To protect the disc avoid placing it in the following locations:
 - In direct sunlight or near a source of heat like a heater.
 - In a place which is damp or dirty.
 - In a place which could be exposed to rain, such as near a window.
- Do not use a disc with a special shape

DTS encoded discs

Caution - when playing DTS encoded CDs excessive noise will be heard on the analogue outputs jacks of the SoundServer. To avoid possible damage to the audio system you should ensure that the correct connections are made to your amplification system for replaying this type of disc.

MAINS PRECAUTIONS

Your SoundServer complies with the household power and safety requirements in your area.

IMPORTANT: (for UK version only)

This apparatus is fitted with an approved moulded 13 Amp plug. To change a fuse in this type of plug proceed as follows:

- 1 Remove fuse cover and fuse.
- 2 Fix new fuse which should be a BS1362 5A, A.S.T.A or BSI approved type.
- 3 Refit the fuse cover.

If the fitted plug is not suitable for your socket outlets, it should be cut off and an appropriate plug fitted in its place.

If the mains plug contains a fuse, this should have a value of 5A. If a plug without a fuse is used, the fuse at the distribution board should not be greater than 5A.

NOTE: The severed plug must be destroyed to avoid a possible shock hazard should it be inserted into a 13A socket elsewhere.

How to connect a plug

The wires in the mains lead are coloured in accordance with the following code:

- 1 The **BLUE** wire must be connected to the terminal which is marked with the letter "N" or coloured **BLACK**.
- 2 The **BROWN** wire must be connected to the terminal which is marked with the letter "L" or coloured **RED**.
- 3 The **GREEN/YELLOW-GREEN** wire must be connected to the terminal which is marked by the letter "E" or by the safety earth symbol \perp or coloured green or green-and-yellow.

Before replacing the plug cover, make certain that the cord grip is clamped over the sheath of the lead - not simply over the three wires.

COPYRIGHT NOTICE

This equipment must not be used for unauthorised duplication of CDs or any other works protected by copyright. No license to infringe copyright is granted by the sale of this equipment.

Recording and playback of some material may require permission. For further information refer to the following:

- Copyright Act 1956
- Dramatic and Musical Performers Act 1958
- Performers Protection Acts 1963, and 1972
- Any subsequent statutory enactments and orders.

CAUTION

When disposing of used batteries, please comply with governmental regulations or environmental regulations or environmental public instructions that apply in your country or area.

STANDBY BUTTON

When this button is pressed once, the power turns **On** and information will appear on the display. When pressed again, press the **Off** action key or the **i** key on the remote control to switch to **Off** mode.

When the unit is in **Off** mode the "Standby" indicator is lit; the apparatus is not disconnected from the AC mains supply in this mode.

IMPORTANT SAFETY INSTRUCTIONS

READ INSTRUCTIONS - All the safety and operating instructions should be read before the product is operated.

KEEP INSTRUCTIONS - The safety and operating instructions should be kept for future reference.

HEED WARNINGS - All warnings on the product and in the operating instructions should be adhered to.

FOLLOW INSTRUCTIONS - All operating and use instructions should be followed.

CLEANING - Unplug this product from the wall outlet before cleaning. The product should be cleaned only with a soft dry cloth. Never clean with furniture wax, benzene, insecticides or other volatile liquids since they may corrode the cabinet.

ATTACHMENTS - Do not use attachments not recommended by the product manufacturer as they may cause hazards.

WATER AND MOISTURE - Do not use this product near water - for example near a bathtub, wash bowl, kitchen sink, or laundry tub; in a wet basement; or near a swimming pool; and the like.

ACCESSORIES - Do not place this product on an unstable cart, stand, tripod, bracket, or table. The product may fall, causing serious injury to a child or adult, and serious damage to the product. Use only with a cart, stand, tripod, bracket or table recommended by the manufacturer, or sold with the product. Any mounting of the product should follow the manufacturer's instructions and should use a mounting accessory recommended by the manufacturer.

CART - A product and cart combination should be moved with care. Quick stops, excessive force and uneven surfaces may cause the product and cart combination to overturn:

VENTILATION - Slots and openings in the cabinet are provided for ventilation and to ensure reliable operation of the product and to protect it from overheating. Do not block any ventilation openings. The openings should never be blocked by placing the product on a bed, sofa, rug or other similar surface. This product should not be placed in a built-in installation such as a bookcase or rack unless proper ventilation is provided. Install in accordance with the manufacturer's instructions.

POWER SOURCES - This product should be operated only from the type of power source indicated on the marketing label. If you are not sure of the type of power supply to your home, consult your product dealer or local power company.

LOCATION - The appliance should be installed in a stable location.

NONUSE PERIODS - The power cord of the appliance should be unplugged from the outlet when left unused for a long period of time.

GROUNDING OR POLARIZATION - If this product is equipped with a polarized alternating current line plug (a plug having one blade wider than the other), it will fit into the outlet only one way. This is a safety feature. If you are unable to insert the plug fully into the outlet, try reversing the plug. If the plug does not fit into the outlet, contact your electrician to replace your obsolete outlet. Do not defeat the safety purpose of the polarized plug.

If this product is equipped with a three-wire grounding type plug, a plug having a third (grounding) pin, it will only work in a grounding type power outlet. This is a safety feature. If you are unable to insert the plug into the outlet, contact your electrician to replace your obsolete outlet. Do not defeat the safety purpose of the grounding type plug.

POWER CORD PROTECTION - Power-supply cords should be protected from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the product.

OUTDOOR ANTENNA GROUNDING - If an outside antenna or cable system is connected to the product be sure the antenna or cable system is grounded so as to provide some protection against voltage surges and built-up static charges. Article 810 of the National Electric Code. ANSI/NFPA70 provides information with regard to proper grounding of the mast and supporting structure, grounding of the lead-in wire to an antenna discharge unit, connection to grounding electrodes, and requirements for the grounding electrode. See Figure A.

LIGHTNING - For added protection for this product during a lightning storm, or when it is left unattended and unused for long periods of time, unplug it from the wall outlet and disconnect the antenna or cable system. This will prevent damage to the product due to lightning and power-line surges.

POWER LINES - An outside antenna system should not be located in the vicinity of overhead power lines or other electric light or power circuits, or where it can fall into such power lines or circuits. When installing an outside antenna system, extreme care should be taken to keep from touching such power lines or circuits as contact with them might be fatal.

OVERLOADING - Do not overload wall outlets, extension cords or integral convenience receptacles as this can result in a risk of fire or electric shock.

OBJECT AND LIQUID ENTRY - Never push objects of any kind into this product through openings as they may touch dangerous voltage points or short-out parts that could result in a fire or electric shock. Never spill liquid of any kind on the product.

SERVICING - Do not attempt to service this product yourself as opening or removing covers may expose you to dangerous voltage or other hazards. Refer all servicing to qualified service personnel.

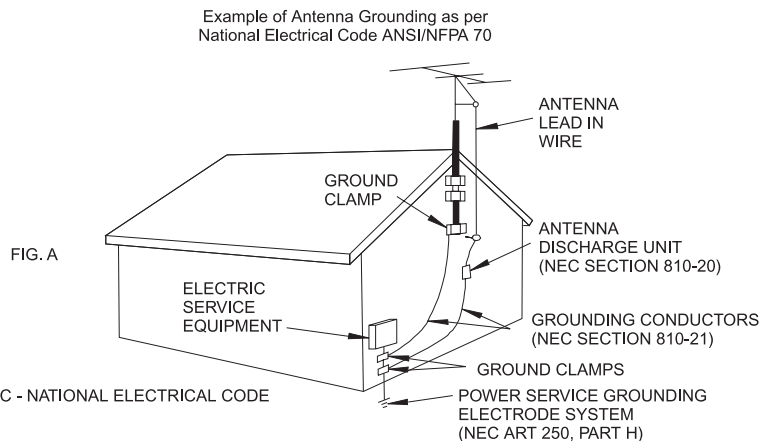

DAMAGE REQUIRING SERVICE - Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.

REPLACEMENT PARTS - When replacement parts are required, be sure the service technician has used replacement parts specified by the manufacturer or have the same characteristics as the original part. Unauthorized substitutions may result in fire, electric shock, or other hazards.

SAFETY CHECK - Upon completion of any service or repairs to this product, ask the service technician to perform safety checks to determine that the product is in proper operating condition.

WALL OR CEILING MOUNTING - The product should not be mounted to a wall or ceiling.

HEAT - Do not install near any heat source such as radiators, heat registers, stores, or other apparatus (including amplifiers) that produce heat.

The lightning flash with arrowhead symbol, within an equilateral triangle, is intended to alert the user to the presence of uninsulated "dangerous voltage" within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.

The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.

IMPORTANT SAFETY NOTICES

The serial number for this equipment is located on the rear panel. Please write this serial number on your enclosed product registration form and keep it in a secure area. This is for your security.

U.S. MODEL

CAUTION: This product satisfies FCC regulations when shielded cables and connectors are used to connect the unit to other equipment. To prevent electromagnetic interference with electric appliances such as radios and televisions, use shielded cables and connectors for connections.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Subpart J, Part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications may cause this unit to fail to comply with Part 15 of the FCC Rules and may void the user's authority to operate the equipment.

CAUTION

- Use of controls or adjustments or performance of procedures other than those specified herein may result in hazardous radiation exposure.
- The use of optical instruments with this product will increase eye hazard.

Information to User

Alteration or modifications carried out without appropriate authorization may invalidate the user's right to operate the equipment.

CANADIAN MODEL

NOTE: This Class B digital apparatus complies with Canadian ICES-003.

Cet appareil numérique de la Classe B est conforme à la norme NMB-003 du Canada.

CAUTION: TO PREVENT ELECTRIC SHOCK, MATCH WIDE BLADE OF PLUG TO WIDE SLOT, FULLY INSERT.

ATTENTION: POUR ÉVITER LES CHOCS ÉLECTRIQUES, INTRODUIRE LA LAME LA PLUS LARGE DE LA FICHE DANS LA BORNE CORRESPONDANTE DE LA PRISE ET POUSSER JUSQU'AU FOND.

EUROPEAN MODEL

NOTE: This product has been designed and type-tested to comply with the limits set out in EN55013, EN55020, EN60950, EN55022: 1998 CLASS B4, EN55024: 1998, FCC RULES PART 15 SUBPART B CLASS B. AS/NZS 3548:1995 CLASS B

CAUTION:

LASER SAFETY: This unit employs a LASER. Only a qualified person should remove the cover or attempt to service the device, due to possible eye injury.

"CAUTION-USE OF CONTROLS OR ADJUSTMENTS OR PERFORMANCE OF PROCEDURE OTHER THAN THOSE SPECIFIED HEREIN MAY RESULT IN HAZARDOUS RADIATION EXPOSURE."

CONTROLS

1. **Output button:** Press this button to display information on the music currently playing. Press this button again to switch to the next output on the SoundServer.
2. **Front panel action keys:** These four keys correspond to the different actions clearly visible by reading the front panel display. For example, in the display opposite, the **✓Play** action key will commence playback of the selected album. The **✓** symbol indicates that you can also press the **✓Select** key on the remote control to commence playback.
3. **Navigation keys:** Move up, down, left, and right through the menu system. The button in the centre selects the currently highlighted option.
4. **Transport keys:** Controls the playback of music on the currently selected output. The **□Record** key is an action key used on some menu screens to begin a recording or to modify a playlist.
5. **HDD Audio button:** Press this button to control the SoundServer.
6. **Remote control action keys:**
 - Press the **Menu** key to display the main menu at any time.
 - Press the **✕** key whenever this symbol is displayed on the TV screen or on the front panel to cancel, exit or delete the current operation according to the information on screen.
 - Press the **i** key whenever this symbol is displayed on the TV screen or on the front panel to edit text information, or confirm a new text entry according to the information on screen.
 - Press the **Home** key to return to the 'home' page of the current function. For instance when browsing the library press this key to return to the **Library** menu.

Fig. A - Front panel display

Fig. B - Remote Control

RECORDING FROM A CD

- Press the **OPEN/CLOSE** key on the front panel to open the CD tray.
- Place a CD in the tray.
- Push the **OPEN/CLOSE** key on the front panel.

The **CD detected** prompt is displayed.

- Press the **□Record** action key to proceed.

The **Please select Auto or Custom record** display then allows you to chose whether to do a quick (one touch) record or specify individual record options.

- Press the **✓Auto** action key to do a one touch recording.

The display confirms when the recording is finished.

Note: You can play music from your music library while you are recording a CD.

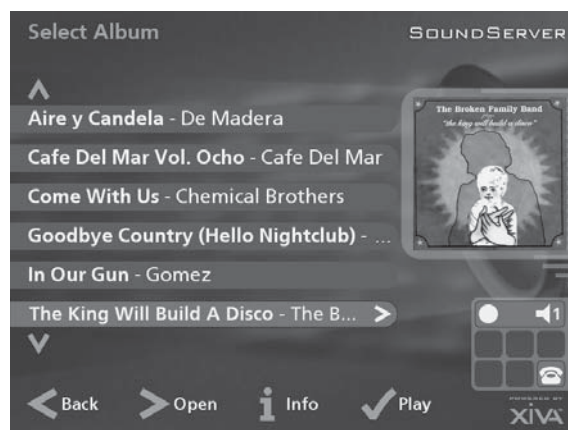

Fig. C - TV User Interface

PLAYING MUSIC

- Display the **Main Menu** by pressing the **Menu** key on your SoundServer remote control, or the **Menu** action key on the front panel.

The **Main Menu** will be displayed.

- Press the **^** and **v** keys to highlight **Library**.
- Press the **✓Select** action key.

The **Library** menu lets you choose how you want to browse your music collection. You can browse items by album, artist, genre, or playlist.

- Press the **^** and **v** keys to step between categories.

For example, if you select **Albums** you will see an alphabetical list of your album titles.

To play music

- Use the **^** and **v** keys to highlight the item you would like to play.
- Press the **>** key to view the contents of the selected item.
- Press the **✓Play** action key.

To stop play

- Press the **■** key on the front panel or the SoundServer remote control.

To pause play

- Press the **||** key on the front panel or your SoundServer remote control.

To skip to the next or previous track

- Press the **⏮** or **⏭** key on the front panel or your SoundServer remote control.

To seek within a track

- Hold down the **⏮** or **⏭** key on the front panel or your SoundServer remote control.

Play resumes from the new position when you release the key.

ENTERING TEXT

To enter text using the alphanumeric keypad

- Press the **>** or **<** keys to move the cursor to the required position.
- Use the keys on the alphanumeric keypad to enter a letter.

For example to enter **S** press the **7** key four times, because **S** is the fourth letter on the **7** key.

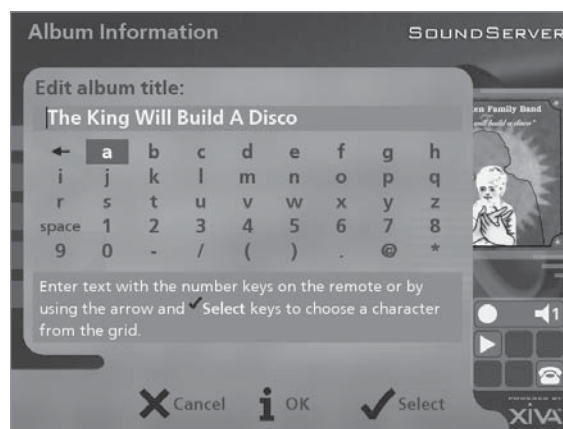

- Press the **DELETE** key on your SoundServer remote control to delete letters.
- Press the **CAPS** key on either the front panel or your SoundServer remote control to switch between upper-case and lower-case letters.

To select letters from a grid

Alternatively, the **Grid** provides a convenient way of selecting letters:

- Press the **v** key to move the cursor into the grid area.

The currently selected letter is highlighted:

- Use the **>**, **<**, **^** or **v** keys to move the cursor and press the **✓Select** action key to enter each letter.
- Use the **CAPS** key on either the front panel or the SoundServer remote to switch between upper and lower case letters.

If at any time you need to enter text in a different part of the text field, or you want to return to entering text using the alphanumeric keypad:

- Press the **^** key repeatedly until the cursor returns to the text field.

Finally, when you have finished entering the name:

- Press the **i OK** action key.

SWITCHING ON AND OFF

To switch to standby mode

Standby mode should be used when the SoundServer is not being used for a short period of time. **Do not** remove the power from the SoundServer in this mode.

- Press the **Standby** key on the front panel or the **⏻ Standby** key on the remote control.
- Press the **✓Standby** action key to enter standby.

To switch to off mode

Off mode should be used when the SoundServer is not being used overnight (or for several days). When the unit is in off mode it consumes very little power. You can safely remove the power from the SoundServer in this mode.

- Press the **Standby** key on the front panel or the **⏻ Standby** key on the remote control.
- Press the **i Off** action key to enter off mode.

To switch on from standby or off mode

- Press the **Standby** key on the front panel or the **⏻ Standby** key on the remote control.

CARTE DE DEMARRAGE RAPIDE

Français

LES COMMANDES

- Bouton Sortie** : Appuyez sur ce bouton pour afficher des informations sur la musique que vous entendez. Appuyez une nouvelle fois sur ce bouton pour passer sur la sortie suivante de SoundServer.
- Touches d'action du panneau frontal** : Ces quatre touches correspondent aux diverses actions clairement visibles sur l'écran du panneau frontal. Par exemple, dans l'écran opposé, la touche d'action **✓ Lire (Play)** commence la lecture de l'album sélectionné. Le symbole **✓** indique que vous pouvez également appuyer sur la touche **✓Select** de la télécommande pour commencer la lecture.
- Touches de navigation** : Déplacez-vous vers le haut, vers le bas, la gauche et la droite à l'aide du système de menu. Le bouton au centre active l'option affichée en surbrillance.
- Touches de transport** : Elles contrôlent la lecture de la musique sur la sortie sélectionnée. La touche **□ Enregistrement** est une touche d'action utilisée avec certains écrans de menu pour commencer un enregistrement ou modifier une liste de lecture.
- Bouton HDD Audio** : Appuyez sur ce bouton pour contrôler votre SoundServer.
- Touches d'action de la télécommande** :
 - Appuyez sur la touche **Menu** pour afficher le menu principal à tout moment.
 - Appuyez sur la touche **✕** chaque fois que ce symbole apparaît sur l'écran TV ou sur le panneau frontal pour annuler, quitter ou supprimer l'opération en cours selon les informations affichées à l'écran.
 - Appuyez sur la touche **i** chaque fois que ce symbole apparaît sur l'écran TV ou sur le panneau frontal pour modifier un texte ou confirmer une nouvelle saisie de texte selon les informations affichées à l'écran.
 - Appuyez sur la touche **■** pour revenir à la page d'accueil de la fonction courante. Par exemple, après avoir consulté la bibliothèque, appuyez sur cette touche pour revenir au menu **Médiathèque**.

Fig. A - Ecran du panneau frontal

Fig. B - La Télécommande de SoundServer

ENREGISTREMENT À PARTIR D'UN CD

- Appuyez sur la touche **Open/Close** du panneau avant pour ouvrir le tiroir à CD.
- Placez un CD dans le tiroir.
- Appuyez sur la touche **Open/Close** du panneau avant.

Le message **CD détecté** apparaît.

- Appuyez sur **□ Enreg. (Rec)** pour continuer.

L'affichage **Veuillez sélectionner Enregistrement auto ou Enregistrement perso** vous permet alors d'effectuer un enregistrement rapide (une seule fois) ou de spécifier des options d'enregistrement personnalisé.

- Appuyez sur **✓ Auto** (touche d'action) pour effectuer un enregistrement en une seule fois.

Un message s'affiche lorsque l'enregistrement est terminé.

Nota: Vous pouvez écouter de la musique depuis la médiathèque tout en enregistrant un CD.

Fig. C - Interface utilisateur TV

LECTURE DE MUSIQUE

- Affichez le **Menu principal** en appuyant sur la touche **Menu** de la télécommande de votre SoundServer, ou bien sur **Menu** (touche d'action) du panneau avant.

Le **Menu principal** s'affiche.

- Appuyez sur les touches **^** et **v** pour sélectionner **Médiathèque**.
- Appuyez sur **✓Sélect.** (touches d'action).

Le menu **Médiathèque** vous permet de choisir la façon dont vous souhaitez parcourir votre collection de musique. Vous pouvez parcourir les articles par album, artiste, genre ou liste de lecture.

- Appuyez sur les touches **^** et **v** pour évoluer entre les catégories

Par exemple, si vous sélectionnez **Albums**, vous verrez une liste alphabétique des titres de vos albums.

Pour lire de la musique

- Utilisez les touches **^** et **v** pour mettre en surbrillance l'élément à lire.
- Appuyez sur la touche **>** pour afficher le contenu de l'élément sélectionné.
- Appuyez sur la touche d'action **✓Lire (Play)**.

Pour arrêter la lecture

- Appuyez sur la touche **■** du panneau avant ou sur la télécommande de SoundServer.

Pour interrompre la lecture momentanément

- Appuyez sur la touche **||** du panneau avant ou de la télécommande de SoundServer.

Pour écouter la piste suivante ou précédente

- Appuyez sur la touche **◀** ou **▶** du panneau avant ou de la télécommande de SoundServer.

Pour rechercher une partie de piste précise.

- Appuyez sur la touche **◀◀** ou **▶▶** du panneau avant ou de la télécommande de SoundServer et maintenez-la enfoncée.

La lecture reprend à l'emplacement atteint dès que vous relâchez la touche.

SAISIE DE TEXTE

Pour saisir du texte à l'aide du pavé alphanumérique

- Appuyez sur les touches **>** ou **<** pour placer le curseur à l'endroit voulu.
- Utilisez les touches du pavé alphanumérique pour entrer une lettre.

Pour taper **S**, par exemple, appuyez sur la touche **7** quatre fois, **S** étant la quatrième lettre de la touche **7**.

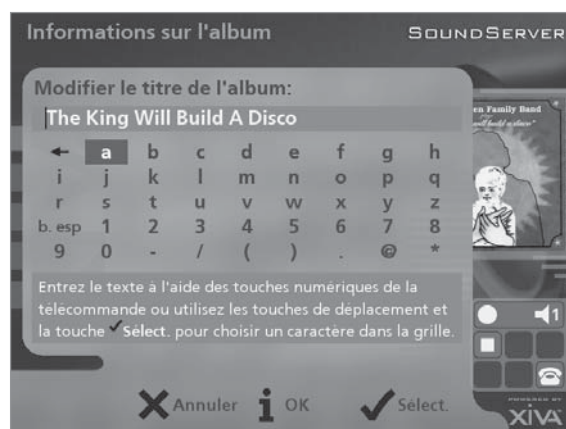

- Appuyez sur la touche **DELETE** de la télécommande de SoundServer pour supprimer des lettres.
- Appuyez sur la touche **CAPS** de la télécommande de SoundServer pour alterner entre les minuscules et les majuscules.

Pour sélectionner des lettres à partir de la grille

L'option **Grille** représente l'autre façon de sélectionner des lettres:

- Appuyez sur la touche **v** pour placer le curseur dans la grille.

La lettre sélectionnée s'affiche en surbrillance:

- A l'aide des touches **>**, **<**, **^** ou **v** déplacez le curseur et appuyez sur la touche d'action **✓Sélect.** pour saisir chaque lettre.
- Appuyez sur la touche **CAPS** de la télécommande de SoundServer pour alterner entre les minuscules et les majuscules.

Si soudainement vous décidez de saisir du texte à un autre endroit du champ de texte, ou si vous désirez de nouveau saisir le texte à l'aide du pavé alphanumérique:

- Appuyez plusieurs fois sur la touche **^**, jusqu'à ce que le curseur revienne dans le champ de texte.

Lorsque vous avez terminé de saisir le nom:

- Appuyez sur la touche d'action **iOK**.

ACTIVATION ET DESACTIVATION

Pour activer le mode Veille

Le mode **Veille** doit être utilisé lorsque SoundServer ne fonctionne pas pendant une courte période. Ne mettez pas SoundServer hors tension lorsque ce mode est activé.

- Appuyez sur la touche **Standby** du panneau avant ou sur la touche **⏻ Standby** de la télécommande.
- Appuyez sur la touche d'action **✓Veille (Stby)** pour passer en mode Veille.

Pour activer le mode Arrêt

Le mode **Arrêt** doit être utilisé lorsque SoundServer ne fonctionne pas d'un jour à l'autre (ou pendant plusieurs jours). Vous pouvez mettre SoundServer hors tension en toute sécurité lorsque ce mode est activé.

- Appuyez sur la touche **Standby** du panneau avant ou sur la touche **⏻ Standby** de la télécommande.
- Appuyez sur la touche d'action **iArrêt (Off)** pour passer en mode Arrêt.

Pour allumer l'unité à partir du mode Veille ou Arrêt

- Appuyez sur la touche **Standby** du panneau avant ou sur la touche **⏻ Standby** de la télécommande.

KURZREFERENZ

DIE BEDIENELEMENTE

- Output-Taste:** Drücken Sie diese Taste, um Informationen zur derzeit wiedergegebenen Musik anzuzeigen. Drücken Sie diese Taste erneut, um zur nächsten Ausgabe auf dem SoundServer zu wechseln.
- Aktionstasten auf der Gerätevorderseite:** Diese vier Tasten entsprechen den verschiedenen Aktionen, die in der Anzeige auf der Vorderseite zu sehen sind. In der Abbildung daneben wird mit der Aktionstaste **✓Wieder. (Play)** die Wiedergabe des ausgewählten Albums gestartet. Das **✓**-Symbol zeigt an, dass Sie die Wiedergabe auch mit der **✓Select**-Taste auf der Fernbedienung starten können.
- Pfeiltasten:** Mit diesen Tasten bewegen Sie sich im Menüsystem nach oben, unten, links und rechts. Mit der Taste in der Mitte können Sie die derzeit markierte Option auswählen.
- Navigationstasten:** Mit diesen Tasten steuern Sie die Musikwiedergabe am derzeit ausgewählten Ausgang. Die **☐ Aufnahme**-Taste ist eine Aktionstaste, mit der auf manchen Menübildschirmen eine Aufnahme gestartet oder eine Playliste geändert wird.
- HDD Audio-Taste:** Drücken Sie diese Taste, um den SoundServer zu steuern.
- Aktionstasten auf der Fernbedienung:**
 - Mit der **☐ Menu**-Taste können Sie jederzeit das Hauptmenü anzeigen.
 - Drücken Sie die **✕**-Taste, wenn dieses Symbol auf dem Fernsehbildschirm oder auf der Anzeige auf der Vorderseite des Geräts angezeigt wird, um den aktuellen Vorgang entsprechend den Informationen auf dem Bildschirm abbrechen, zu beenden oder zu löschen.
 - Drücken Sie die **i**-Taste, wenn dieses Symbol auf dem Fernsehbildschirm oder auf der Anzeige auf der Vorderseite des Geräts angezeigt wird, um entsprechend den Informationen auf dem Bildschirm Textinformationen zu bearbeiten oder eine neue Texteingabe zu bestätigen.
 - Drücken Sie die **🏠**-Taste, um zur Startseite der aktuellen Funktion zurückzukehren. Wenn Sie beispielsweise die Bibliothek durchsuchen, drücken Sie diese Taste, um zum Menü **Musikbibliothek** zurückzukehren.

VON EINER CD AUFNEHMEN

- Betätigen Sie die **OPEN / CLOSE** Taste auf der Frontblende, um die CD-Schublade zu öffnen.
- Die CD in die CD-Schublade legen.
- Die Taste **OPEN / CLOSE** der Frontblende erneut drücken.

Die Meldung **CD erkannt** wird angezeigt.

- Die Aktionstaste **☐Aufnah. (Rec)** betätigen, um weiter fortzufahren.

Das display **Bitte Autoaufnahme oder Spezialaufnahme wählen** ermöglicht Ihnen dann zu wählen, eine schnelle (One-Touch) Aufnahme durchzuführen oder Ihre individuellen Aufnahmeoptionen zu spezifizieren.

- Betätigen Sie die Taste **✓Auto** (Aktionstaste) zur Durchführung einer schnellen (One-Touch) Aufnahme.

Das Display zeigt an, wenn die Aufnahme abgeschlossen ist.

Hinweis: Sie können Musik aus der Musikbibliothek wiedergeben, während Sie eine CD aufnehmen.

Abb. A - Anzeige auf der Vorderseite

Abb. B - Der Fernbedienung

Abb. C - TV-Benutzeroberfläche

MUSIK ABSPIELEN

- Das **Hauptmenü** aufrufen, indem Sie die Taste **Menu** auf der Fernbedienung Ihres SoundServers oder die Taste **Menu** (Aktionstaste) auf der Frontblende.

Das **Hauptmenü** wird angezeigt.

- Die Tasten **^** und **v** betätigen, um **Musik** zu markieren.
- Die Taste **✓Wählen** (Aktionstaste) betätigen.

Das Menü **Bibliothek** ermöglicht Ihnen die Auswahl der Option, mit Hilfe derer Sie Ihre Musiksammlung durchsuchen können. Sie können Musikstücke unter Verwendung der Kategorien Alben, Künstlern, Genre oder Playliste suchen.

- Verwenden Sie die Tasten **^** und **v** zum Wechseln zwischen den einzelnen Kategorien.

Wenn Sie z.B. **Albums** wählen, erscheint eine alphabetische Liste der Titel Ihrer Alben.

Um Musik zu spielen

- Markieren Sie mit den Tasten **^** und **v** den Titel, das Album usw., das Sie wiedergeben möchten.
- Drücken Sie die **>**-Taste, um den Inhalt des ausgewählten Titels, Albums usw. anzuzeigen.
- Drücken Sie die Aktionstaste **✓Wieder.(Play)**.

Um das Spielen der Musik zu beenden

- Drücken Sie auf der Fernbedienung oder auf der Vorderseite des SoundServer die Taste **■**.

So halten Sie die Wiedergabe an

- Drücken Sie auf der Fernbedienung oder auf der Vorderseite des SoundServer die Taste **||**.

So springen Sie zum nächsten oder vorherigen Titel

- Drücken Sie auf der Fernbedienung oder auf der Vorderseite des SoundServer die Taste **⏮** bzw. **⏭**.

So durchsuchen Sie einen Titel.

- Halten Sie auf der Fernbedienung oder auf der Vorderseite des SoundServer die Taste **⏮** bzw. **⏭** gedrückt.

Die Wiedergabe wird von der Stelle aus fortgesetzt, an der Sie Taste loslassen.

EINBEBEN VON TEXTEINGEBEN VON TEXT

So geben Sie Text über die alphanumerische Tastatur ein

- Bewegen Sie den Cursor mit den Tasten **>** bzw. **<** an die gewünschte Stelle.
- Geben Sie die Buchstaben über die alphanumerische Tastatur ein.

Beispiel: Um ein **S** einzugeben, drücken Sie viermal die Taste **7**, da **S** der vierte Buchstabe auf der Taste **7** ist.

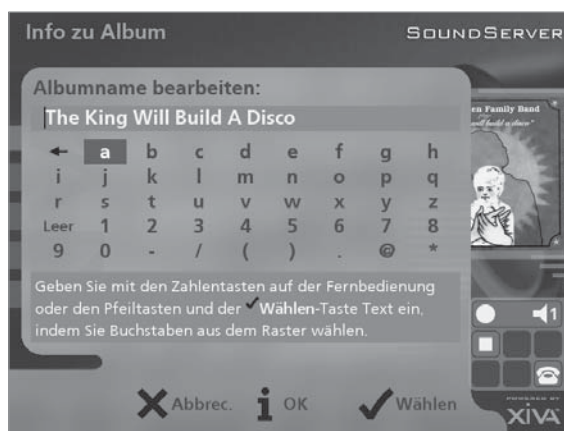

- Drücken Sie auf der Fernbedienung die Taste **DELETE**, um einen Buchstaben zu löschen.
- Drücken Sie die **CAPS**-Taste am Gerät oder auf der Fernbedienung, um zwischen Groß- und Kleinschreibung zu wechseln.

So wählen Sie die Buchstaben aus dem Raster aus

Sie können die Buchstaben auch über die Option **Raster** eingeben:

- Drücken Sie die **v**-Taste, um den Cursor in das Raster zu bewegen.

Der aktuelle Buchstabe wird markiert:

- Mit den Tasten **>**, **<**, **^** und **v** bewegen Sie den Cursor. Drücken Sie die Aktionstaste **✓Wählen**, um den gewünschten Buchstaben einzugeben.
- Drücken Sie die **CAPS**-Taste am Gerät oder auf der Fernbedienung, um zwischen Groß- und Kleinschreibung zu wechseln.

Gehen Sie folgendermaßen vor, wenn Sie Text an einer anderen Stelle im Textfeld oder wieder über die alphanumerische Tastatur eingeben möchten:

- Drücken Sie wiederholt die **^**-Taste, bis der Cursor in das Textfeld zurückgeht.

Geben Sie auf diese Art den gewünschten Namen vollständig ein:

- Drücken Sie die Aktionstaste **iOK** action key.

EIN-UND AUSSCHALTEN DES GERÄTS

So aktivieren Sie den Standby-Modus

Den Standby-Modus sollten Sie aktivieren, wenn Sie den SoundServer kürzere Zeit nicht nutzen. Trennen Sie den SoundServer in diesem Modus **nicht** von der Stromversorgung.

- Drücken Sie auf der Vorderseite des SoundServer die **Standby**-Taste bzw. die **⏻ Standby**-Taste auf der Fernbedienung.
- Drücken Sie die Aktionstaste **✓Standby (Stby)** um den Standby-Modus zu aktivieren.

So aktivieren Sie den Aus-Modus

Den Aus-Modus sollten Sie aktivieren, wenn Sie den SoundServer über längere Zeit (z.B. über Nacht) nicht nutzen. In diesem Modus können Sie das Netzkabel sicher vom SoundServer zu schalten.

- Drücken Sie auf der Vorderseite des SoundServer die **Standby**-Taste bzw. die **⏻ Standby**-Taste auf der Fernbedienung.
- Drücken Sie die Aktionstaste **iAus (Off)** um den Standby-Modus zu aktivieren.

So schalten Sie das Gerät aus dem Standby-Modus oder Aus-Modus ein

- Drücken Sie auf der Vorderseite des SoundServer die **Standby**-Taste bzw. die **⏻ Standby**-Taste auf der Fernbedienung.

FICHA DE INICIO RÁPIDO

LOS CONTROLES

- Botón Output:** pulse este botón para mostrar la información sobre la música que se está reproduciendo. Vuelva a pulsar este botón para conmutar a la salida siguiente de SoundServer.
- Botones de acción del panel frontal:** estos cuatro botones corresponden a las acciones visibles en la pantalla del panel frontal. Por ejemplo, en la pantalla, el botón de acción **✓Repro. (Play)**, comenzará la reproducción del álbum seleccionado. El símbolo **✓** indica que también puede pulsar el botón **✓Select** del mando a distancia para comenzar la reproducción.
- Botones de navegación:** permiten moverse hacia arriba, abajo, a la izquierda y a la derecha por el sistema de menús. El botón del centro selecciona la opción resaltada.
- Botones de transporte:** controlan la reproducción de la música en la salida seleccionada. El botón de **■Grabación** es un botón de acción utilizado en algunas pantallas de menús para comenzar la grabación o modificar una lista de reproducción.
- Botón HDD Audio:** pulse este botón para controlar SoundServer.
- Botones de acción del mando a distancia:**
 - Pulse el botón **Menu** para mostrar el menú principal cuando lo desee.
 - Pulse el botón **×** cuando este símbolo se muestre en la pantalla de TV o en el panel frontal para cancelar, salir o eliminar la tarea en curso, según la información en pantalla.
 - Pulse el botón **i** cuando este símbolo se muestre en la pantalla de TV o en el panel frontal para editar información de texto o confirmar una nueva entrada de texto según la información en pantalla.
 - Pulse el botón **■** para volver a la página de 'inicio' de la función actual. Por ejemplo, cuando explore la fonoteca, pulse este botón para volver al menú **Fonoteca**.

GRABAR DESDE UN CD

- Pulse la tecla de **OPEN/CLOSE** del panel frontal para abrir la bandeja de CD.
- Meta un CD en la bandeja.
- Pulse la tecla de **OPEN/CLOSE** del panel frontal.

Se muestra el mensaje de **detección de CD**.

- Pulse **■ Grabar (Rec)** para proseguir.

La visualización **Seleccione grabación automática (Auto) o personalizada (Personal.)** le permite elegir entre hacer una grabación rápida (una pulsación) o especificar opciones de grabación individuales.

- Pulse **✓Auto** (tecla de acción) para hacer una grabación con una sola pulsación.

El visualizador confirma cuando se finaliza la grabación.

Nota: Mientras graba un CD, puede escuchar música de su fonoteca.

Fig. A - Pantalla del panel frontal

Fig. B - Mando al distancia del SoundServer

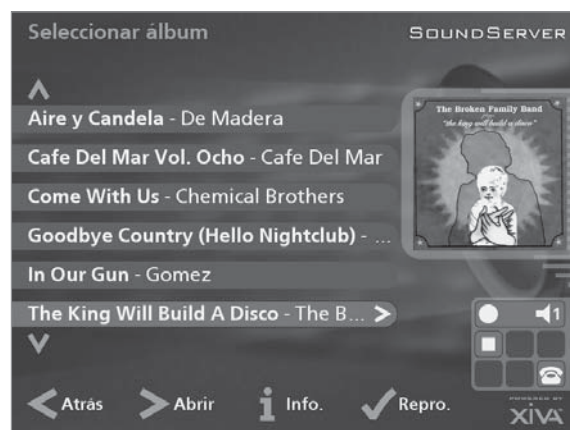

Fig. C - Interfaz de usuario de TV

REPRODUCCIÓN DE MÚSICA

- Visualice el **Menú Principal** pulsando la tecla de **Menu** del mando a distancia del SoundServer o **Menu** (tecla de acción) del panel fronto.

Se visualizará el **Menú Principal**.

- Pulse las teclas **^** y **v** para resalta **Fonoteca**.
- Pulse **✓Selecc.** (tecla de acción).

El menú de **Fonoteca** le permite elegir la forma en que desea explorar su colección musical. Puede explorar artículos por álbum, artista, género o lista de reproducción.

- Pulse la tecla **^** y **v** para desplazarse entre las categorías.

Por ejemplo, si selecciona **Álbumes** verá una lista alfabética de sus títulos de álbumes.

Para reproducir música

- Utilice los botones **^** y **v** para resaltar el elemento que desee reproducir.
- Pulse el botón **>** para ver el contenido del elemento seleccionado.
- Pulse el botón **✓Repro.** (Play)

Par detener la reproducción

- Pulse el botón **■** en el panel frontal o en el mando a distancia de SoundServer.

Para hacer una pausa

- Pulse el botón **||** en el panel frontal o en el mando a distancia de SoundServer.

Para pasar a la pista siguiente o a la anterior

- Pulse el botón **⏮** o **⏭** en el panel frontal o en el mando a distancia de SoundServer.

Para hacer una búsqueda dentro de una pista

- Mantenga pulsado el botón **⏮** o **⏭** en el panel frontal o en el mando a distancia de SoundServer.

La reproducción se reanuda a partir de la posición en la que se suelta el botón.

INTRODUCCIÓN DE TEXTO

Para introducir texto mediante los botones alfanuméricos

- Pulse los botones **>** o **<** para colocar el cursor en la posición requerida.
- Use los botones alfanuméricos para introducir una letra.

Por ejemplo, para introducir la letra S, pulse cuatro veces el botón **7**, ya que S es la cuarta letra correspondiente al botón **7**.

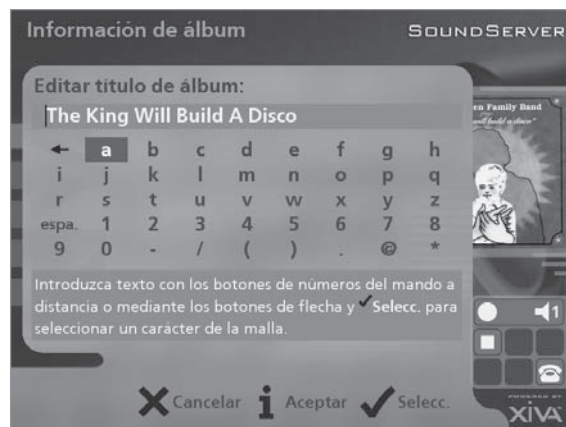

- Pulse el botón **DELETE** del mando a distancia de SoundServer.
- Pulse el botón **CAPS** del panel frontal o del mando a distancia de SoundServer para alternar entre mayúsculas y minúsculas.

Para seleccionar letras en una malla

La opción **Malla** también permite seleccionar letras:

- Pulse el botón **v** para colocar el cursor sobre la malla.

La letra seleccionada actualmente aparecerá resaltada:

- Use los botones **>**, **<**, **^** o **v** para colocar el cursor y pulse el botón de acción **✓Selecc.** para introducir cada letra.
- Pulse el botón **CAPS** del panel frontal o del mando a distancia de SoundServer para alternar entre mayúsculas y minúsculas.

Si quiere introducir texto en otra parte del campo de texto, o si desea regresar al método de botones alfanuméricos:

- Pulse repetidamente el botón **^** hasta que el cursor esté en el campo de texto.

Cuando haya introducido el nombre completo:

- Pulse el botón de acción **i Aceptar (OK)**.

ENCENDIDO Y APAGADO

Para activar los modos de espera

El modo de **espera** debería usarse cuando se interrumpa brevemente el uso de SoundServer. **No desconecte** SoundServer en este modo.

- Pulse el botón **Standby** del panel frontal o el botón **⏻Standby** del mando a distancia.
- Pulse el botón de acción **✓Espera (Stby)** para activar el modo espera.

Para activar los modos apagado

El modo **apagado** debería usarse cuando SoundServer vaya a estar inactivo de un día para otro (o durante varios días). En este modo puede desconectar SoundServer sin riesgo alguno.

- Pulse el botón **Standby** del panel frontal o el botón **⏻Standby** del mando a distancia.
- Pulse el botón de acción **i Apaga (Off)** para activar el modo apagado.

Para activar la unidad desde los modos de espera o apagado

- Pulse el botón **Standby** del panel frontal o el botón **⏻Standby** del mando a distancia.

SCHEDA D'AVVIAMENTO RAPIDO

I COMANDI

1. **Pulsante Output:** Premere questo pulsante per visualizzare le informazioni sulla musica attualmente in riproduzione. Premere nuovamente questo pulsante per passare all'output successivo sul SoundServer.
2. **Tasti d'azione del pannello anteriore:** Questi quattro tasti corrispondono alle varie azioni chiaramente visibili leggendo il display del pannello anteriore. Ad esempio, nel display a fianco, il tasto d'azione **✓Ripro. (Play)** inizierà la riproduzione dell'album selezionato. Il simbolo **✓** indica che è anche possibile premere il tasto **✓Select** sul telecomando per iniziare la riproduzione.
3. **Tasti di navigazione:** Consentono di spostarsi in su, in giù, a sinistra ed a destra attraverso il sistema menu. Il pulsante al centro seleziona l'opzione attualmente evidenziata.
4. **Tasti di trasporto:** Controlla la riproduzione di musica sull'output attualmente selezionato. Il tasto **□Registra** è un tasto d'azione usato su alcune schermate menu per iniziare a registrare o a modificare una lista di riproduzione.
5. **Pulsante HDD Audio:** Premere questo pulsante per controllare il SoundServer.
6. **Tasti d'azione del telecomando:**
 - Premere il tasto **Menu** per visualizzare il menu principale in qualsiasi momento.
 - Premere il tasto **✕** ogniqualvolta sullo schermo TV o sul pannello anteriore compare questo simbolo per annullare, uscire o cancellare l'operazione attuale a seconda delle informazioni contenute sullo schermo.
 - Premere il tasto **i** ogniqualvolta sullo schermo T o sul pannello anteriore compare questo simbolo per modificare le informazioni di testo o per confermare l'inserimento di un nuovo testo a seconda delle informazioni contenute sullo schermo.
 - Premere il tasto **🏠** per tornare alla 'home page' della funzione attuale. Ad esempio, quando si sfoglia la libreria, premere questo tasto per tornare al menu **Libreria**.

Fig. A – Display del pannello anteriore

Fig. B - Telecomando del SoundServer

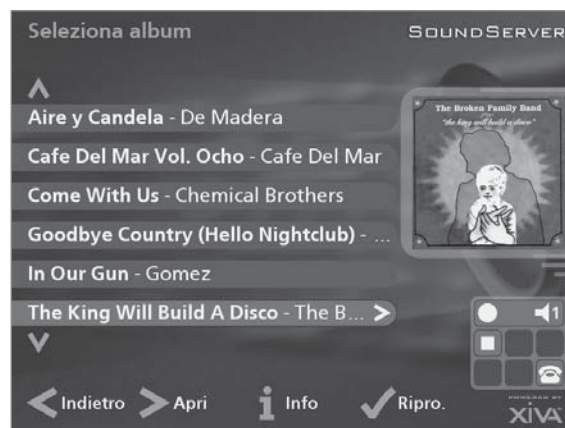

Fig. C – Interfaccia utente TV

REGISTRAZIONE DA UN CD

- Digitare il tasto **OPEN/CLOSE** sul pannello anteriore per aprire il cassetto del CD.
- Inserire un CD nel cassetto.
- Springere il tasto **OPEN/CLOSE** sul pannello anteriore.

Compare il prompt **Rilevato CD**.

- Digitare il tasto **Registra (Rec)** per continuare.

Il display **Selezionare Registrazione automatica o Registrazione personalizzata** permette di scegliere se effettuare una registrazione rapida con una sola battuta, o specificare scelte individuali di registrazione.

- Digitare il tasto d'azione **✓Auto** per effettuare una registrazione con una sola battuta.

Il display conferma la fine della registrazione.

Nota: È possibile riprodurre della musica dalla libreria musicale durante la registrazione di un CD.

SUONARE MUSICA

- Visualizzare il **Menu Principale** digitando il tasto **Menu** sul telecomando del SoundServer, o il tasto d'azione **Menu** sul pannello anteriore.

Viene visualizzato il **Menu Principale**.

- Digitare i tasti **^** e **v** per evidenziare **Libreria**.
- Digitare il tasto d'azione **✓Scegli**.

Il menu **Libreria** permette di scegliere come si vuole sfogliare la propria collezione di brani musicali. Si possono sfogliare le voci secondo l'album, l'artista, il genere o l'ordine in cui diversi brani saranno suonati.

- Digitare i tasti **^** e **v** per passare da una categoria all'altra.

Ad esempio, se si seleziona **Album** si può vedere un elenco in ordine alfabetico dei titoli degli album disponibili.

Per suonare musica

- Usare i tasti **^** ed **v** per evidenziare la voce che si desidera riprodurre.
- Premere il tasto **>** per visualizzare i contenuti della voce selezionata.
- Digitare il tasto d'azione **✓Ripro. (Play)**

Per cessare di suonare musica

- Digitare il tasto **■** sul pannello anteriore o sul telecomando del SoundServer.

Per arrestare la riproduzione

- Digitare il tasto **||** sul pannello anteriore o sul telecomando del SoundServer.

Per ignorare la pista successiva o precedente

- Premere il tasto **⏮** oppure **⏭** sul pannello anteriore o sul telecomando del SoundServer.

Per operare una ricerca all'interno di una pista

- Tenere premuto il tasto **⏮** oppure **⏭** sul pannello anteriore o sul telecomando del SoundServer.

La riproduzione riprende dalla nuova posizione al rilascio del tasto.

INSERIMENTO DI TESTO

Per inserire del testo usando la tastiera alfanumerica

- Premere i tasti **>** oppure **<** per spostare il cursore nella posizione desiderata.
- Usare i tasti sulla tastiera alfanumerica per inserire una lettera.

Ad esempio, per inserire **S** premere il tasto **7** per quattro volte, poiché la **S** è la quarta lettera sul tasto **7**.

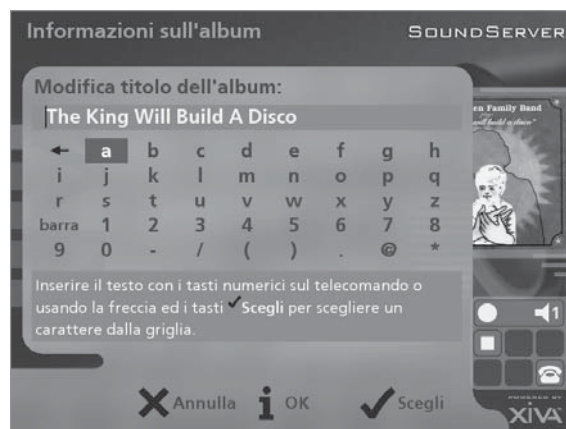

- Premere il tasto **DELETE** sul telecomando del SoundServer per cancellare le lettere.
- Premere il tasto **CAPS** sul pannello anteriore o sul telecomando del SoundServer per passare dalle lettere maiuscole alle minuscole e viceversa.

Per selezionare le lettere da una griglia

In alternativa, l'opzione **Grid** offre un modo comodo di selezionare le lettere da una griglia:

- Premere il tasto **v** per spostare il cursore nell'area della griglia.

Si evidenzia la lettera selezionata attualmente:

- Usare i tasti **>**, **<**, **^** oppure **v** per spostare il cursore e premere il tasto d'azione **✓Scegli** per inserire ciascuna lettera.
- Usare il tasto **CAPS** sul pannello anteriore o sul telecomando del SoundServer per passare dalle lettere maiuscole alle minuscole e viceversa.

Se in qualsiasi momento occorre inserire del testo in una parte diversa del campo di testo, o se si desidera tornare ad inserire del testo usando la tastiera alfanumerica:

- Premere ripetutamente il tasto **^** fino a che il cursore non torni al campo di testo.

Infine, quando si è terminato di inserire il nome:

- Premere il tasto d'azione **iOK**.

ACCENSIONE E SPEGNIMENTO

Per commutare sul modo standby

Occorre usare il modo **Standby** quando non si intende usare il SoundServer per un periodo di tempo breve. **Non togliere** l'alimentazione dal SoundServer in questo modo!

- Premere il tasto **Standby** sul pannello anteriore o il tasto **⏻ Standby** sul telecomando.
- Premere il tasto d'azione **✓Standby** per entrare in standby.

Per commutare sul modo spento

Occorre usare il modo **Spento** quando non si intende usare il SoundServer durante la notte (o per diversi giorni). Quando l'unità è in modo off consuma pochissima alimentazione. In questo modo è possibile togliere l'alimentazione dal SoundServer in sicurezza.

- Premere il tasto **Standby** sul pannello anteriore o il tasto **⏻ Standby** sul telecomando.
- Premere il tasto d'azione **i Spento (Off)** per entrare in modo off.

Per accendere dal modo standby

- Premere il tasto **Standby** sul pannello anteriore o il tasto **⏻ Standby** sul telecomando.

INTRODUCTION

Congratulations on purchasing your **SoundServer** from Imerge. The SoundServer is a revolutionary way of filling your home with music.

Your SoundServer stores and catalogues your music collection, allowing you to select any album or track at the press of a key. You can browse through your albums and tracks using convenient on-screen menus displayed on your television, showing full album, track, and artist names downloaded from the Gracenote CDDB Music Recognition Service as well as album cover art illustration from the XiVA on-line service. Your SoundServer also lets you organise your music collection and create selections for different occasions to suit your mood.

Incredible capacity

Your SoundServer is a hard disk based audio system which can store hundreds of hours of music, all with the convenience of instant access, at the touch of a key.

Convenient TV screen

Play music, record CDs, or organise your library using convenient on-screen menus which show the full album, artist, and track names, allowing you to select the one you want with a few simple selections.

Internet access for track listings

Your SoundServer records the CDs from your music collection at faster than real time. It then automatically connects to the Gracenote CDDB Music Recognition Service via the built-in modem or Ethernet connection. This database provides album and track details for a wide range of CDs. This information can be downloaded and stored with each CD you record, allowing you to select any item in your music collection by album name, artist name, track name, or genre, giving you total flexibility in the way you access and control your music collection.

Create your own playlists

Your SoundServer allows you to compile personal playlists and then automatically play tracks from the playlist you have selected. Playlists let you customise your SoundServer for each member of the family, or for matching the music to the occasion or mood.

Instant access, irrespective of your music collection

Whether you select a track by title, album, artist, or genre, your SoundServer locates it instantly and plays it at the press of a key. All this is achieved with an extremely simple and intuitive user interface, operated using a few keys on the front panel or remote control.

SPECIFICATIONS

General

| | |
|----------------------------|--------------------------------|
| System..... | Hard Disk Audio Server |
| Power requirements..... | AC 100-240V ~50Hz/60Hz |
| Power Consumption..... | 44W Max |
| Weight..... | 8.5Kg Max |
| Dimensions..... | 101mm(H) x 437mm(W) x 367mm(D) |
| Operating temperature..... | 10-40°C |
| Operating humidity... | 10-90% RH (non-condensing) |

Video Outputs

S-Video Output

| | |
|-------------------|------------------------|
| Output level..... | 1V _{p-p} /75Ω |
| Connector..... | S-VIDEO jack |

Composite video output

| | |
|-------------------|------------------------|
| Output level..... | 1V _{p-p} /75Ω |
| Connector..... | RCA jack |

VGA output

| | |
|------------------------|---------------------------|
| Output level..... | 0.75V _{p-p} /75Ω |
| Connector..... | 15 pin D-type F |
| Output resolution..... | 800x600 |

Audio outputs

Analogue outputs (3 pairs of outputs)

| | |
|-----------------------|-------------------|
| Output level..... | 2V _{RMS} |
| Output impedance..... | 600Ω |
| Connector..... | RCA jack |

Digital outputs

| | |
|---------------------------------------|---------------------------|
| Optical digital output..... | Toslink |
| Coaxial digital output level..... | 500mV _{p-p} /75Ω |
| Coaxial digital output connector..... | RCA jack |

Audio inputs†

Analogue inputs

| | |
|--------------------------|-------------------|
| Maximum input level..... | 2V _{RMS} |
| Input impedance..... | 10kΩ |
| Connector..... | RCA Jack |

Coaxial Digital input

| | |
|------------------------------|---------------------------|
| SRC supported frequency..... | 32kHz, 44.1kHz, 48kHz |
| Maximum input level..... | 500mV _{p-p} /75Ω |
| Connector..... | RCA Jack |

Analogue audio characteristics (typical)

| | |
|--|-----------------------|
| Frequency response..... | 20Hz to 20kHz ± 0.5dB |
| S/N ratio (@1KHz)..... | 100dB (A weight) |
| Dynamic range..... | better than 96dB |
| Total harmonic distortion (@1kHz)..... | 0.003% |
| Channel separation (@1KHz)..... | 110dB |

Communications

Modem

| | |
|----------------|-----------------|
| Connector..... | RJ11 (56kbit/s) |
|----------------|-----------------|

Ethernet

| | |
|----------------|-----------------------------|
| Connector..... | RJ45 (10 Base T/100 Base T) |
|----------------|-----------------------------|

Controller

| | |
|----------------|----------------|
| Connector..... | 9 pin D-type M |
|----------------|----------------|

IR Input

| | |
|--------------------------|------------|
| Maximum input level..... | 5V |
| Connector..... | 3.5mm jack |

USB (2 connectors)

| | |
|----------------|-------------------|
| Connector..... | Type A USB socket |
|----------------|-------------------|

Accessories

| | |
|------------------------------------|---|
| Stereo RCA cable..... | 1 |
| Video cable..... | 1 |
| Modem cable..... | 1 |
| Power cord..... | 1 |
| Remote control unit..... | 1 |
| AAA (R03P) dry cell batteries..... | 2 |
| Operating instructions..... | 1 |
| Registration card | 1 |

CONTROLS AND CONNECTIONS

FRONT VIEW

This section provides information on the controls and connections available on your SoundServer.

① USB

Allows the SoundServer to communicate with supported USB devices.

② DISC TRAY

Insert a disc with the label side up.

③ OPEN/CLOSE button

Pressing the **open/close** button opens the disc tray. Place a compact disc on the tray with the label side facing up. Press the button again to close the tray.

④ OUTPUT button

Press the **output** button to display what music is playing on the currently selected output. Pressing the **output** button for a second time will select the next output in sequence.

⑤ ACTION buttons

Action buttons allow you to perform specific operations dependent on the current menu screen. For more information on using the action buttons see the chapter called **Using the SoundServer action keys** p.22.

⑥ DISPLAY

The display shows information about the music available on the unit, the status of the SoundServer (for instance if the unit is currently playing), and the current configuration of the unit.

⑦ SELECT button

Selects the option currently visible on the display.

⑧ NAVIGATION buttons

The navigation buttons allow you to move up, down, left or right through the menus shown on the display.

⑨ ⏮ / ⏪ button

When the button is pressed briefly during playback, play restarts at the beginning of the current track. A second brief press moves to the beginning of the previous track. When the button is held for a longer period of time the music will rewind at high speed.

⑩ RECORD button

The **record** button is an action key - on some menu screens you can use this button to begin a recording, from the CD inside the unit. When managing playlists this button is also used to create new playlists or add tracks to an existing playlist.

⑪ ⏮ / ⏪ button

When the button is pressed briefly during playback, play restarts at the beginning of the next track. When the button is held for a longer period of time the music will fast forward at high speed.

⑫ II PAUSE button

Press the **pause** button to interrupt playback temporarily.

⑬ ► PLAY button

Press the **play** button to resume playback if the music has been stopped or paused.

⑭ ■ STOP button

Press the **stop** button to halt playback on the current output.

⑮ STANDBY

Press the standby button to put your SoundServer into either **standby** or **off** mode, press again to switch your SoundServer back on.

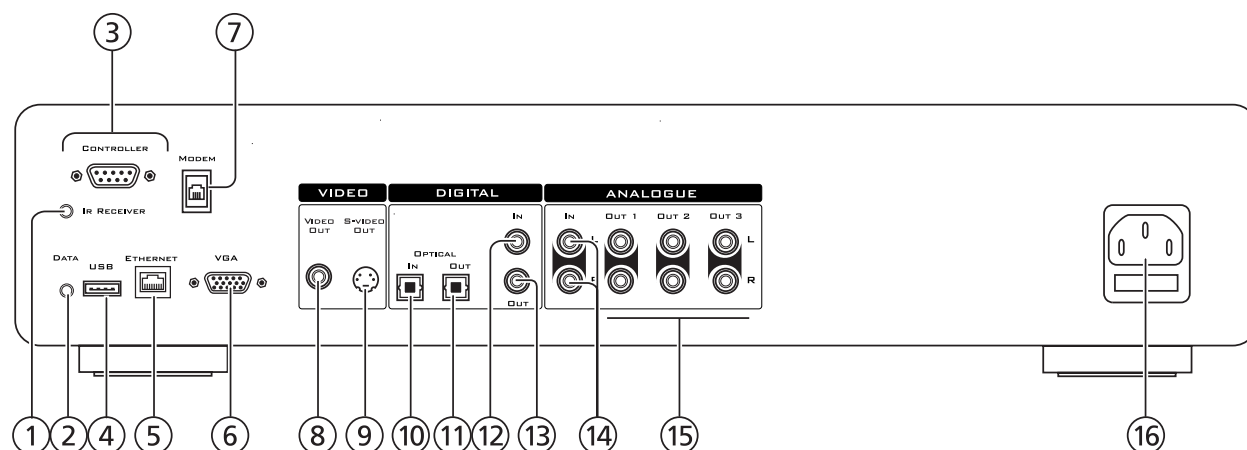

⑯ REMOTE SENSOR

This window receives signals transmitted from the remote control unit.

⑰ ONLINE

The online indicator is illuminated when the modem is active.

REAR VIEW

① IR RECEIVER

The **IR receiver** connection allows remote control information to be carried from other devices directly into the SoundServer. See the chapter called **Using your SoundServer in a multiroom system** p.36.

② DATA

Allows the SoundServer to send control information to other supported devices.

③ CONTROLLER

The **Controller** port provides serial communication with supported devices. For instance a multiroom control system may communicate with the SoundServer using the **XiVA-Link** protocol.

④ USB

Allows the SoundServer to communicate with supported USB devices.

⑤ ETHERNET

The **Ethernet** port can be used to connect the SoundServer to a high speed internet connection. It may also be used by supported software applications to communicate with the system. A shielded Ethernet cable should be used in conjunction with this connection.

⑥ VGA

The **VGA** connector may be used to connect a VGA monitor or a suitable Plasma screen for displaying the TV User interface.

⑦ MODEM

The **Modem** port can be used to connect the SoundServer to a standard analogue telephone line for internet access (using the supplied cable).

⑧ VIDEO OUT

Connect the composite **Video Out** of the SoundServer to the composite input of a suitable PAL/NTSC TV (depending on the supplied configuration) to display the TV User Interface. You may also need to switch the TV to the relevant AUX input to display the picture.

⑨ S-VIDEO OUT

Connect the **S-VIDEO** output of the SoundServer to the S-VIDEO input of a suitable PAL/NTSC TV (depending on the supplied configuration) to display the TV User Interface. You may also need to switch the TV to the relevant AUX input to display the picture.

⑩ DIGITAL OPTICAL IN*

High Quality recordings can be made onto the Hard Disk of the SoundServer using an optical connection from a suitable device (such as Minidisc or DAT).

⑪ DIGITAL OPTICAL OUT

The digital optical output can be used to transmit high quality audio to a device with a digital optical input (D/A convertor, A/V amplifier etc.) using an optical fibre cable. The advantage of using the optical output is that it has low signal loss due to cables and is completely isolated from the ground loop. The audio output of the **Digital Optical Out** connector is the same as the audio output of the **Analogue Audio Out 1** connector. This output may not be used for making a digital copy of your media.

⑫ DIGITAL IN - COAXIAL*

High Quality recordings can be made onto the Hard Disk of the SoundServer using a coaxial connection from a suitable device (such as Minidisc or DAT).

⑬ DIGITAL OUT - COAXIAL

By connecting this jack to a digital audio component (D/A convertor, A/V amplifier etc.), digital signals from the SoundServer can be transmitted directly from the system without first being converted to analogue. The audio output of the **Digital Coaxial Out** connector is the same as the audio output of the **Analogue Audio Out 1** connector. This output may not be used for making a digital copy of your media.

⑭ ANALOGUE IN*

Analogue sources (such as cassette or vinyl LP) may be recorded onto the Hard Disk of the SoundServer using this connection.

⑮ ANALOGUE OUT 1,2,3

The SoundServer is a multiroom device allowing you to listen to different music in up to 3 different rooms all at the same time (depending on the configuration purchased). Each analogue output should be connected to the input jacks of a pre-amplifier. For more information see the chapter called **Using your SoundServer in a multiroom system** p.36.

⑯ MAINS

Connect the supplied mains lead to this connector to provide power to the unit.

* To be enabled in a future release of software.

REMOTE CONTROL

The remote control supplied with the SoundServer is a "Universal" remote control. This means that other devices, such as a television or amplifier, may be controlled using this remote control. When you have selected to control the television the **TV** device button will light up each time you press a button - similarly when the SoundServer is selected the **HDD Audio** button will light and when the Amp is selected the **Amp** button will light.

The following diagram explains the function of the keys on your SoundServer remote control:

① **STANDBY button**

Places the SoundServer in/out of **standby** or **off** mode.

② **HDD Audio button**

Selects the SoundServer as the device to be controlled.

③ **TV button**

Selects the TV as the device to be controlled. For more information on configuring this remote to control your television see the chapter called **Configuring your remote to control other devices** p.19.

④ **DEFAULT O/P button**

Resets the TV user interface to controlling the default output for the room where you are located. For more information on multiroom use of the SoundServer see the chapter called **Using your SoundServer in a multiroom system** p.36. If the TV device is selected this button will show/hide the on-screen clock.

⑤ **AMP button**

Selects the Amp as the device to be controlled. For more information on configuring this remote to control your amplifier see the chapter called **Configuring your remote to control other devices** p.19.

⑥ **DISC/CH. buttons**

Selects the next/previous album (or playlist) on your SoundServer. If you have the TV device selected these buttons will select the next and previous channels.

⑦ **MUTE button**

Provided that the SoundServer output volume setting is set to **variable** this button will mute the output of the SoundServer. For more information see the chapter **Advanced Settings** p.34. If the TV or Amp device is selected the TV/Amp volume is muted.

⑧ **VOLUME buttons**

Provided that the SoundServer output volume setting is set to **variable** these buttons will increase/decrease the volume of the SoundServer output. For more information see the chapter **Advanced Settings** p.34. If the TV or Amp device is selected these buttons control the volume of the TV/Amp.

⑨ **OUTPUT button**

Press the **output** button to display what music is playing on the currently selected output. Pressing the output button for a second time will select the next output in sequence.

⑩ **CANCEL button**

The **cancel** button is an action key - on some menu screens this is used to cancel an operation which you no longer wish to continue. If the TV device is selected this button will hide text services.

⑪ **INFO button**

The **info** button is an action key - on some menu screens this is used to display additional information which may not be currently displayed; on other menu screens it may also be used to edit text on the screen. If the TV device is selected this button displays text services.

⑫ **HOME button**

The **home** button is an action key - it can be used to return to the top page of a particular function. For instance if you are browsing the music library and you wish to look for a different album you may use the **home** button to return to the main **Library** menu.

⑬ **Menu button**

The **menu** button is an action key - pressing this key will always return the TV screen and front panel to the **Main Menu**. Use this button if you wish to start a new operation.

⑭ **NAVIGATION $\wedge \vee < >$ buttons**

The navigation buttons are used to move up, down, left or right through the menu pages.

⑮ **Select button**

Select is used to activate the currently highlighted option. When browsing the **library** this button will start playback of the selected item.

⑩ ALBUM button

The **album** button can be used to jump to the album list in the music library. If the TV device is selected this button selects the **red** text service option.

⑪ PLAYLIST button

The **playlist** button can be used to jump to the playlist list in the music library. If the TV device is selected this button selects the **blue** text service option.

⑫ ARTIST button

The **artist** button can be used to jump to the artist list in the music library. If the TV device is selected this button selects the **green** text services option.

⑬ GENRE button

The **genre** button can be used to jump to the genre list in the music library. If the TV device is selected this button selects the **yellow** text services option.

⑭ NUMERIC (0 to 9) buttons

The numeric keys can be used as follows:

- When browsing the track list these buttons allow you specify the track you wish to play
- In the music library you may jump to an item in the list that begins with one of the letters specified at the top of each key.
- In text entry mode these keys can be used as an alphanumeric key pad (similar to a mobile phone).

If the TV device is selected the numeric buttons select which channel you wish to view.

⑮ ⇌ RANDOM (DELETE) button

The **random** button has the following functions:

- During playback this button toggles the random play setting on the SoundServer.
- In text entry mode this button can be used to delete characters.

If the TV device is selected this button switches the TV channel to the AV input.

⑯ ↺ REPEAT (CAPS) button

The **repeat** button has the following functions:

- During playback this button toggles the repeat play setting on the SoundServer.
- In text entry mode this button can be used to toggle between upper-case and lower-case letters.

If the TV device is selected this button switches the TV between single digit and double digit channel selection.

⑰ ■ STOP button

During playback the **stop** button halts playback on the currently selected output of the SoundServer.

⑱ ► PLAY button

The **play** button can be used to resume playback on the currently selected output of the SoundServer.

⑲ □ RECORD button

The **record** button is an action key - on some menu screens you can use this button to begin a recording from the CD inside the unit; when managing playlists this button is also used to create new playlists or add tracks to an existing playlist.

⑳ ⏮ button

When this button is pressed briefly during playback, play restarts at the beginning of the next track. When the button is held for a longer period of time the music will fast forward at high speed.

㉑ ⏪ button

When this button is pressed briefly during playback, play restarts at the beginning of the current track. A second brief press moves to the beginning of the previous track. When the button is held for a longer period of time the music will rewind at high speed.

㉒ ⏸ PAUSE button

Press the **pause** button to interrupt playback temporarily.

CONFIGURING YOUR REMOTE TO CONTROL OTHER DEVICES

The **TV** and **Amp** devices on the SoundServer remote control may be individually configured to control a range of televisions and amplifiers from well known manufacturers.

To configure the remote to control your television

- Press the **TV** and ☒Select buttons simultaneously; hold them down for 1 second.

The **TV** button will remain lit for 20 seconds; the configuration process must be completed during this time.

- Enter the 3 digit numeric code matching the manufacturer of your television from the list in Appendix A.
- Press the **TV** button again.

The **TV** button will blink twice to indicate that the configuration has been accepted. If the **TV** button does not blink begin the process again, taking care to enter the number exactly as printed in the list. If the television is switched on during the configuration process, entering the correct code will cause the television to go into standby.

To configure the remote to control your amplifier.

- Press the **Amp** and ☒Select buttons simultaneously; hold them down for 1 second.

The **Amp** button will remain lit for 20 seconds; the configuration process must be completed during this time.

- Enter the 3 digit numeric code matching the manufacturer of your amplifier from the list in Appendix A.
- Press the **Amp** button again.

The **Amp** button will blink twice to indicate that the configuration has been accepted. If the **Amp** button does not blink begin the process again, taking care to enter the number exactly as printed in the list. If the amplifier is switched on during the configuration process, entering the correct code will cause the amplifier to go into standby.

Reassigning volume control when using the SoundServer.

If the volume setting of the SoundServer is set to **fixed** the **▲** and **⌫ Mute** keys will have no effect (for more information on volume output settings see the chapter called **Advanced Settings** p.34.). These buttons may therefore be configured to control the volume on your amplifier whilst the **HDD Audio** device is selected. To re-configure these keys:

- Ensure that the Amp device is correctly configured to control your amplifier (as shown above).
- Press the **HDD Audio** and **✓Select** buttons simultaneously; hold them down for 1 second.

The **HDD Audio** button will remain lit for 20 seconds; the configuration process must be completed during this time.

- Press the **⌫ Mute**
- Press the **▲ +** key
- Press the **Amp** device key

The **HDD Audio** device key will blink twice to indicate that the configuration has been accepted. If the **HDD Audio** button does not blink begin the process again, taking care to press the buttons in the correct sequence. The **▲** and **⌫ Mute** keys should now control the amplifier when the HDD Audio device is selected.

To return the **▲** and **⌫ Mute** keys to their original configuration repeat the above process, pressing the **HDD Audio** button instead of the **Amp** button.

Note: For more information on configuring the HDD Audio device to control your SoundServer in a multi-room environment see the chapter called **Using SoundServer in a multiroom system** p.36.

CONNECTING YOUR SOUNDSERVER

The diagram below illustrates the basic connections required to use your SoundServer.

Note: Do not make any connections to the SoundServer while the power supply is connected and switched on.

- Connect the supplied telephone lead to a standard analogue telephone socket. Connect the other end of this cable to the socket marked **Modem** on the back panel of the SoundServer.
- Connect the red plug of the supplied audio lead to the red **Analogue Out 1** socket on the back of the SoundServer. Connect the adjacent white plug to the white **Analogue Out 1** socket on the SoundServer. Connect the other end of this cable to the AUX or CD inputs on your amplifier. In the same way connect the other **Analogue Out** connectors to other amplifiers as appropriate.
- Connect the yellow plug of the supplied TV lead to the yellow **Video Out** socket of the SoundServer. For the European TV lead* connect the Scart plug to the ext. 1 or 2 socket on the rear of your TV. For the non-European TV lead connect the yellow plug to the video input on the rear of your TV.
- Connect the supplied power cord to your mains power supply.
- Switch on your television. Select the appropriate video channel to view the SoundServer TV User Interface display.

* For Scart connection, the red and black plugs are not required.

Basic connections required for SoundServer operation

SWITCHING ON AND OFF

There are two power saving modes available from the **Standby** button on the SoundServer front panel and the **⏻** button on the remote control.

If you are not using your SoundServer it is strongly recommended that you place the unit into one of the two power saving modes.

Standby mode

Standby mode should be used when the SoundServer is not being used for a short period of time. Putting the unit into standby takes just a few seconds; switching the unit on from standby also takes just a few seconds. **Do not** remove the power from the SoundServer in this mode.

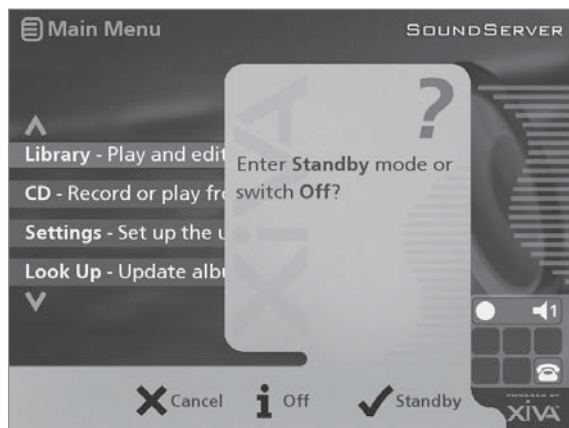

Off mode

Off mode should be used when the SoundServer is not being used overnight (or for several days). There is a short wait whilst the unit is switched to off mode; switching the unit on from off mode may take a few minutes. When the unit is in off mode it consumes very little power. You can safely remove the power from the SoundServer in this mode.

To enter standby or off mode

- Press the **Standby** key on the front panel or the **⏻ Standby** key on the remote control.

The following prompt is displayed:

The front panel display shows:

Either:

- Press the **Stby** action key on the front panel or the **✓Select** key on the remote control to switch to standby.

After a short delay the TV screen shows:

Or:

- Press the **Off** action key on the front panel or the **i** key on the remote control to switch to off mode.

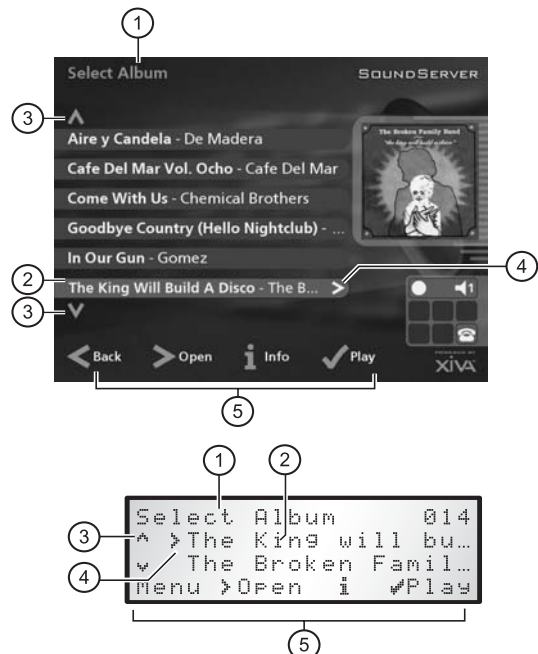

After a short period of time the TV display and front panel display will switch off.

To switch on from standby or off mode

- Press the **Standby** key on the front panel or the **⏻ Standby** key on the remote control.

TV SCREEN AND FRONT PANEL DISPLAY

The following diagram shows the key features of a typical SoundServer TV screen and front panel display:

- Indicates the title of the current screen.
- Title of the current selection, shown highlighted on the TV screen.
- Indicates that you can use the **^** or **v** keys to browse up and down the current menu list.
- Indicates that you can press the **>** key to look inside the currently selected item, such as to show the tracks in an album, or the albums by an artist or in a genre.
- Action keys available from the current menu for selection or navigation.

Using the SoundServer action keys

The front panel of your SoundServer has four “action” keys located underneath the main display. The function of these keys changes depending on which menu you are currently viewing. The available actions are shown on the bottom line of the front panel display. In the example above, the functions **Menu**, **Open**, **Info**, and **Play** are available; next to each option is a symbol indicating where a key on the SoundServer remote control may be used instead of pressing the action key. By default:

- **i** corresponds to an **information** action
- **✕** corresponds to a **cancel** action
- **✓** corresponds to a **select** action

The TV screen also displays these actions as well as other actions available on the SoundServer remote control.

SoundServer status icons

The TV display shows the current status of the SoundServer using a series of icons as shown below:

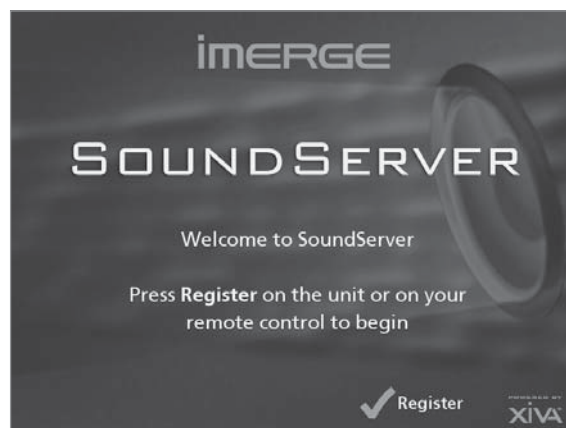

1. Indicates the default output of the remote currently in control of the TV user interface. The bar to the right shows how long the user has before the TV interface is available for other users to access. A green circle indicates that infrared is being received from the controlling remote. A red circle indicates that infrared is being received from a remote with a different default output and will be rejected until the interface is available again. A yellow circle indicates that infrared is being received and no update is required on the TV user interface. For information on using your SoundServer in a multiroom environment see the chapter called **Using your SoundServer in a multiroom system**, p.36.
2. Shows which output the user interface is currently controlling.
3. Indicates the playback status of the currently selected output (e.g. play, stop, pause etc.)
4. Indicates whether repeat is enabled on the current output.
5. Indicates whether random is enabled on the current output.
6. When the handset is lifted the unit is online, when the handset is on top of the telephone the unit is offline.
7. Indicates that a disc is inside the CD tray.

REGISTERING YOUR SOUNDSERVER

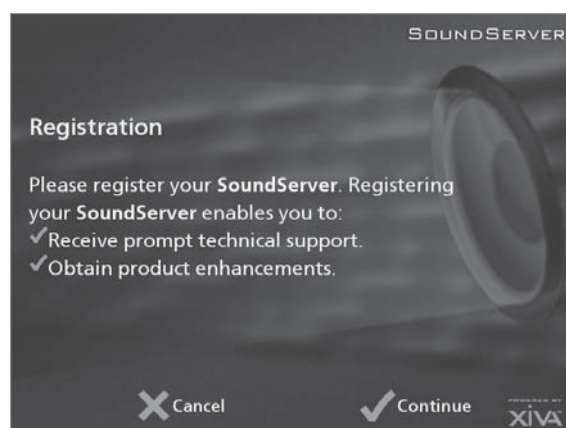

Before using your SoundServer you should spend some time registering your purchase. This enables you to receive technical support as well as software upgrades.

To register your SoundServer

- When the welcome screen is first displayed, press the **✓Select** key on the remote control or the **Regstr** action key on the front panel.

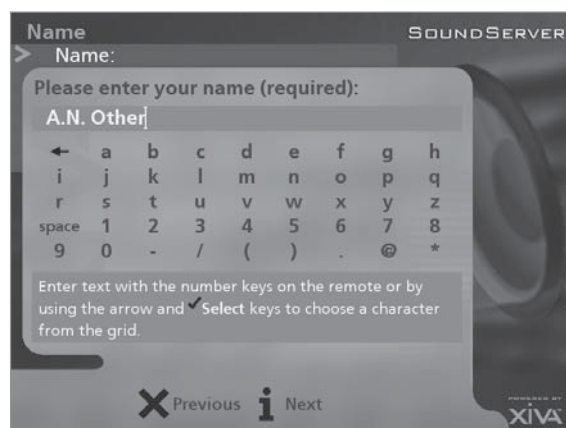

The following registration screen will be displayed:

The same information is also shown on the front panel display.

- Press the **✓Select** key on your remote control or the **Cont.** action key on the front panel to display the first registration screen:

To use the alphanumeric keypad

As part of the registration process you will need to enter your name and address into the SoundServer. You can do this using the following keys on the remote control:

| Action | How |
|--|--|
| Enter Text | Use the alphanumeric keys on the remote control. For example, to type an S press the 7 key four times. |
| Switch between entering upper-case or lower-case letters | Press the action key labelled Caps or the ⇧CAPS key on the remote control. |
| Enter a space. | Press the 0 key. |
| Delete a mistake | Press the ↩DELETE key on the remote control. |
| Move the cursor within the text | Press the < or > keys. |

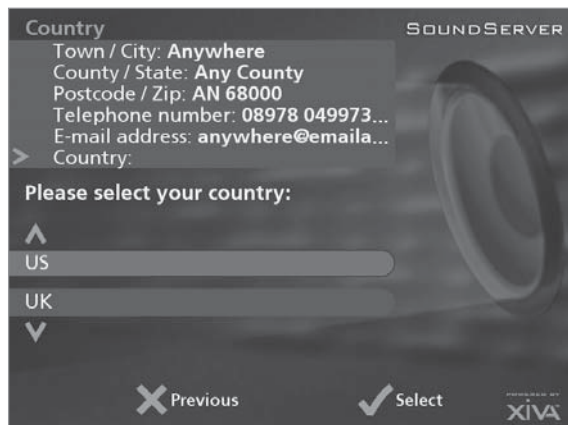

Alternatively you can use the built-in alphanumeric **grid** to enter details:

- Press the **∇** key to move the cursor onto the grid, then use the **<**, **>**, **∇**, and **△** keys to highlight characters, and the **✓Select** key to select them.
- Use the **△** key repeatedly to move the cursor back into the text entry box to return to normal text entry mode.

When you have completed each entry:

- Press the **Next** action key on the front panel or the **i** button on the remote.

When you have entered your name and address details you will be prompted to select your country:

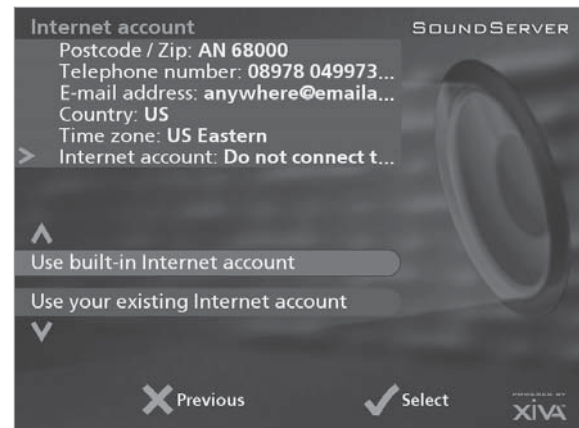

- Press the **△** or **∇** keys to highlight your country and press the **✓Select** key on the remote or the **✓** action key on the front panel.

To connect your SoundServer to an Internet Account

The next sequence of screens helps you connect your SoundServer to the Internet.

- Press the **Cont.** action key on the front panel or the **✓Select** key on the remote to begin.

The following screen then allows you to select from a range of options to set up your internet connection:

- Press the **∇** or **△** keys to select between the following options:

1. Using the built-in Internet account

Your SoundServer will connect using a pre-installed internet account for your country.

Note: The built-in Internet account may not be available for your country.

2. Using your existing Internet account

If you are already using a computer to connect to the Internet via a telephone line, and you have an existing Internet account, you may prefer to use these account details for your SoundServer. If you do not know your username, password, and Internet account telephone number you may be able to read these from your computer's settings; otherwise contact your Internet Service Provider for assistance.

Note: AOL and Compuserve accounts are not currently supported.

3. Do not connect to the Internet

You should use this option if you do not presently have access to a telephone line (you may set up a connection later).

- Press the **✓** action key on the front panel or the **✓Select** key on the remote to select the option you have chosen.

If you have selected **Use built-in Internet Account**, read the terms and conditions and press the **Accept** action key on the front panel or the **✓Select** key on the remote control to continue.

If you have selected **Use your existing Internet Account**, follow the on-screen instructions to enter your account username, password, and the telephone number of your service provider.

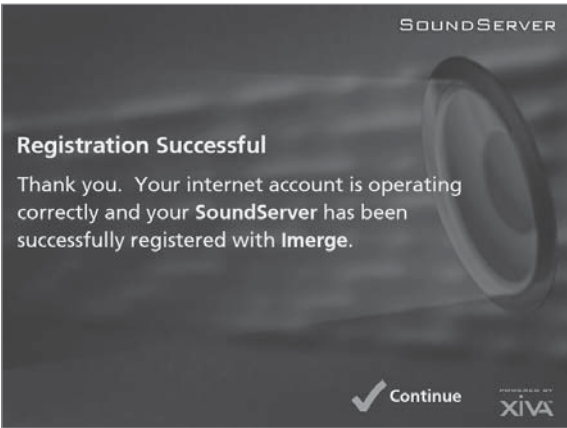

The SoundServer will then attempt to connect to the Internet to send your registration details to Imerge.

Before proceeding, check that you have connected your SoundServer to a telephone line using the cable supplied.

- Press the **Regstr** action key on the front panel or the **Select** button on the remote control.

The following screen confirms that registration was successful and your Internet account is operating successfully:

- Press the **Cont** action key on the front panel or the **Select** button on the remote control to continue.

Registration is now complete and the **Main Menu** will be displayed.

If the SoundServer is unable to successfully connect to the Internet you will be given further details on how to connect to the Internet later.

THE SOUNDSERVER MAIN MENU

To display the **Main Menu** at any time during normal operation:

- Press the **Menu** action key.

The **Main Menu** will be displayed on the TV screen and on the front panel display.

To select an option from the main menu

- Press the **^** or **v** key on the front panel or SoundServer remote control to step between the main menu options.

The current option is shown highlighted.

- Press the **Select** button to select the current option.

The options are as follows:

| Option | Description |
|------------|---|
| Register | Connects to the Internet and registers your SoundServer with Imerge |
| Library | Allows you to select the music you want to play by album, artist, genre, or playlist. You may also edit the names of the music stored on the Hard Disk. |
| CD | Allows you to play a CD or record new music to the Hard Disk. |
| Settings | Allows you to configure your SoundServer settings. |
| Look Up | This option allows you to retrieve any missing CD information from the Internet. |
| Disconnect | Interrupts any on-line activity and releases the telephone line. |

More information about each of these functions is given in the following chapters.

RECORDING MUSIC

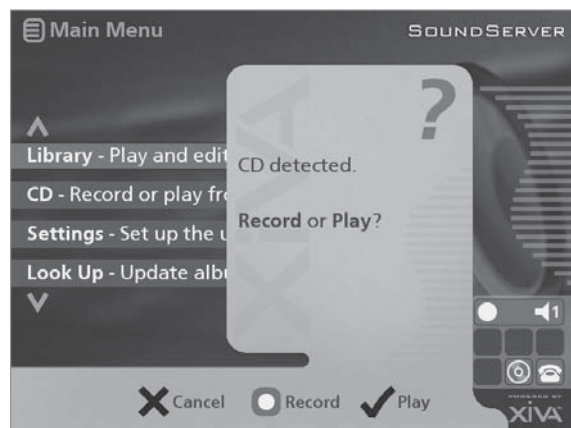

Your SoundServer allows you to record music from CDs and add it to the music library stored on the Hard Disk. It is also able to access the internet, either through a broadband connection (using the Ethernet port) or using the built-in modem. Each time you record a CD the SoundServer allows you to automatically retrieve the album name, artist name, track names and music genre using the Gracenote CDDb Music Recognition Service. An album cover illustration is also often available from the XiVA on-line service.

If you do not provide an Internet connection you can label the CDs you record manually.

RECORDING FROM A CD

- Press the **OPEN/CLOSE** key on the front panel to open the CD tray.
- Place a CD in the tray.
- Push the **OPEN/CLOSE** key on the front panel.

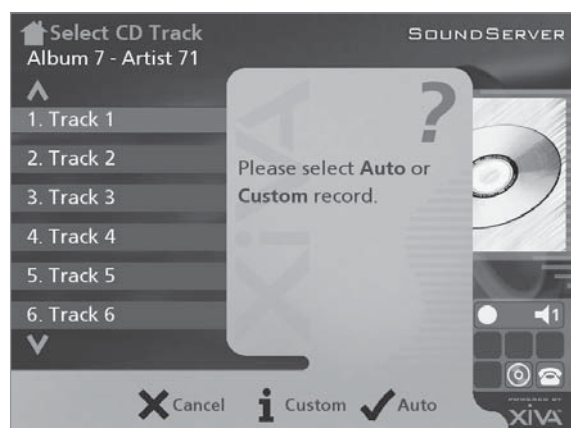

The following prompt is automatically displayed:

- Press the **Record** action key to record the album onto the Hard Disk.

Note: If you already have a CD in the tray, select the **CD** option from the **Main Menu** to display the contents of the disc; press the **Rec. CD** to begin recording.

The following display then allows you to choose whether to do an auto (one-touch) recording of the entire CD, or a custom recording which allows you to select the tracks you want to record and the recording quality:

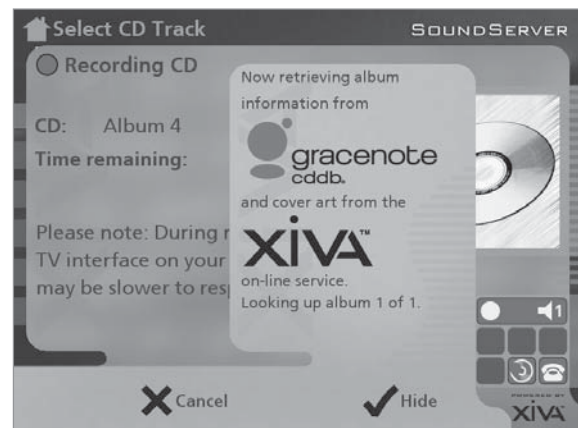

To make an automatic (one-touch) CD recording

- Press the **✓ Auto** key.

An **Auto** recording will automatically look up the track and artist information on the Gracenote CDDb Music Recognition Service and the album cover illustration on the XiVA on-line service, and then record all the tracks on the album.

The quality of the recording is specified in the **Settings** menu (under **Default Recording Quality**). For more information on the settings menu see the chapter called **Advanced Settings** p.34.

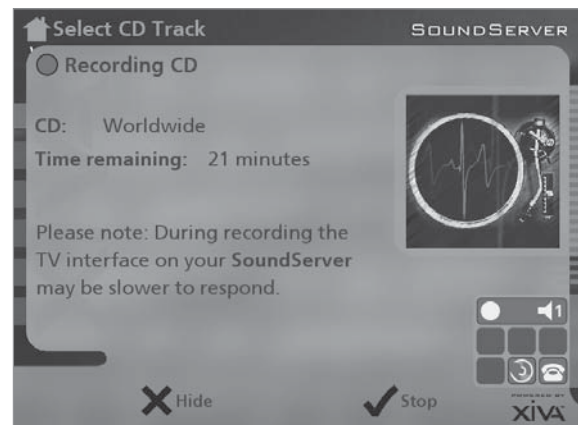

Once recording has begun your SoundServer will connect to the Internet to retrieve the CD information:

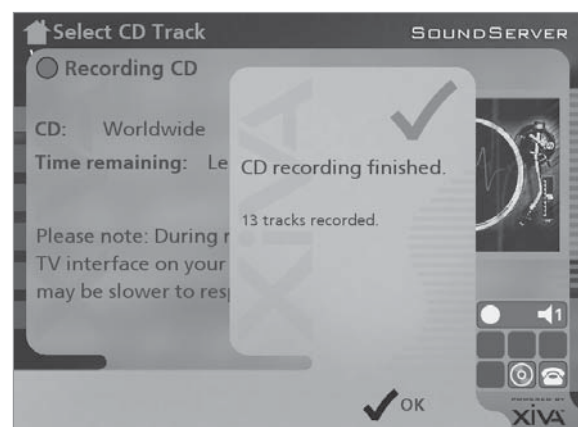

Once the search has been completed you will receive a confirmation to tell you if the CD has been found.

- Press the **✓ OK** key to continue.

The following display shows the approximate progress of the recording:

Once recording is complete the following screen confirms how many tracks have been successfully recorded.

To make a custom CD recording

The custom recording option lets you choose which tracks to record, the sound quality of the recording, and allows you to enter album information.

To make a custom recording:

- Choose **iCustom** from the “Please select Auto or Custom record” screen.

A series of screens allow you to specify each of the recording options.

Tracks

The **tracks** menu lets you specify which tracks you want to record:

Initially all tracks are selected, as indicated by a ✓ in front of the track number.

- Press the ✓**Select** key to unselect or select the highlighted track.
- Press the **^** or **v** keys to step between tracks.
- Press the **XNone/All** action key to unselect or select all of the tracks respectively.

When you have specified which tracks you want to record:

- Press the **iNext** key.

Record Quality

The **Record Quality** menu allows you to specify the recording quality:

- Use the **^** or **v** keys to choose between **Maximum** (no compression used) or one of the **MP3** compression options.

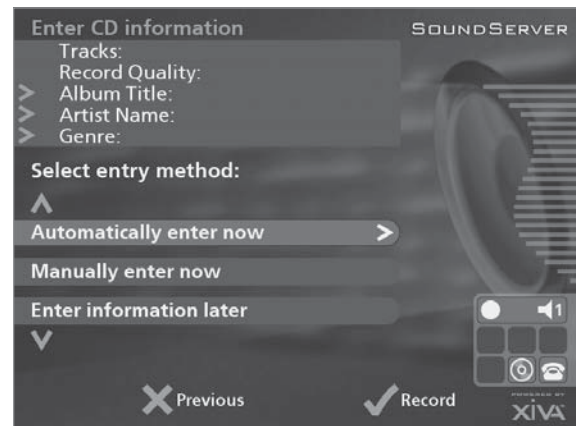

Note: The higher quality options use more space on your SoundServer Hard Disk, so you will not be able to record as many CDs.

In each case the display shows the total remaining recording time available at the specified recording quality.

- Press the ✓**Select** key to confirm your selection.

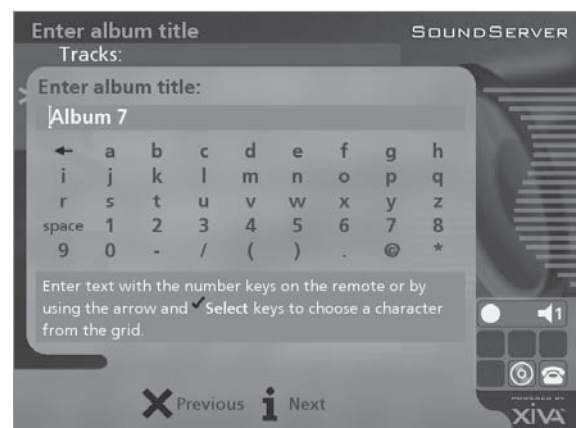

CD information

The **CD information** screen allows you to choose how to enter the album name, artist name, genre and tracks:

If you select **Enter Information Later** you can download the CD Information for all the CDs you have recorded by choosing **Look Up** from the **Main Menu** menu at a later time.

If you select **Manually enter now** a series of menus prompts you to enter the album name, artist name, and track titles:

- Edit the album and artist name using the alphanumeric keys on your SoundServer remote control or by using the **text grid** on the front panel.

For more information about entering and editing names see the Chapter called **Entering and editing names**, p.33.

After entering the album name and artist name, you will be prompted to select a genre:

- Select a genre using the **^** and **v** keys.
- Press the ✓**Select** action key to confirm your choice.

You will finally be prompted to enter the track titles.

- Edit each track title in the usual way, and press the **iNext** key once each title is complete.
- Once all the entries are complete recording will commence automatically.

If you select **Automatically enter now** your SoundServer will attempt to retrieve the correct CD information from both the Gracenote CDDB Service and the XiVA on-line service. You will receive confirmation if this search has been successful once the connection is complete. For information about setting up the Internet connection see **Registering your SoundServer** p.22.

If you do not have an Internet connection, or the CD is not listed in the database it will be given names such as Album 35, Artist 21, and Track 1, Track 2 etc. and it will be classified in genre **Unclassifiable**.

CD-Text Support

If the CD you have inserted contains CD-Text information your SoundServer will use this information to label the recording appropriately.

Listening to music while recording a CD

You can play music from your music library while you are recording a CD.

- If you are already playing music from the library press the **Output** action key to return to displaying information about the track you are playing.
- If you are not already playing music from the library or wish to change the music you are listening to, press the **Menu** key on the SoundServer remote control and select music as normal.

For more information on selecting music for playback see the following chapter called **Playing Music**.

At any time you can return to see the progress of your recording by selecting **CD** from the **Main Menu**.

Note: During the recording process the update of the TV display may be slightly slower.

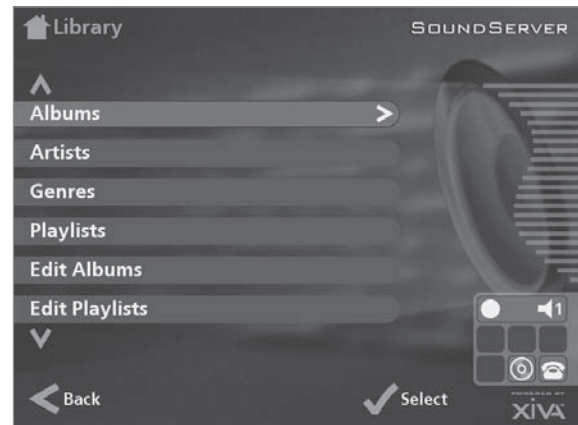

PLAYING MUSIC

This chapter explains how to play music on your SoundServer. It also explains how to search for a track in a number of alternative ways.

PLAYING MUSIC FROM THE LIBRARY

- Display the **Main Menu** by pressing the **Menu** action key on your SoundServer remote control.
- If necessary use the **Up** or **Down** keys to highlight **Library**.
- Press the **Select** key.

The **Library** menu will be displayed. This lets you choose how you want to browse your music collection:

| Option | Description |
|----------------|---|
| Albums | Display a list of albums in the library sorted alphabetically by album title. |
| Artists | Display your music library grouped by artist name. |
| Genres | Display your music library grouped by genre. |
| Playlist | Display a complete list of custom playlists. |
| Edit Albums | Edit the album title, artist name, genre or track name of existing music in your library. |
| Edit Playlists | Use this option to create and edit custom playlists. |

Alternatively you can display the contents of a category directly by pressing the **ALBUM**, **ARTIST**, **GENRE**, and **PLAYLIST** keys on your SoundServer remote control.

To browse the library by album

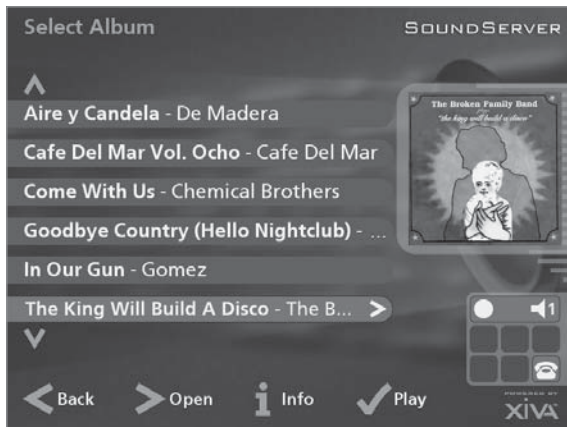

Either:

- Use the **Up** or **Down** keys if necessary to highlight the **Albums** option in the **Library** Menu.
- Press the **Select** action key to confirm your selection.

or:

- Press the **ALBUM** key on your SoundServer remote control.

The front panel display and TV screen both display the albums available in your library:

- Press the **▲** or **▼** keys to step between albums, or press the appropriate letter on your SoundServer remote control to jump directly to that position in the list.

To play the entire album:

- Press the **✓Play** action key to begin playback.

To select a particular track from this album:

- Press the **>Open** key to open the album and display the tracks it contains.
- Use the **▲** or **▼** keys to step between tracks, or press a key on the alphanumeric keypad to jump to that track number.
- Press the **✓Play** action key to play the currently selected track.
- Press the **<** key to return to browsing by album.

To browse the library by artist

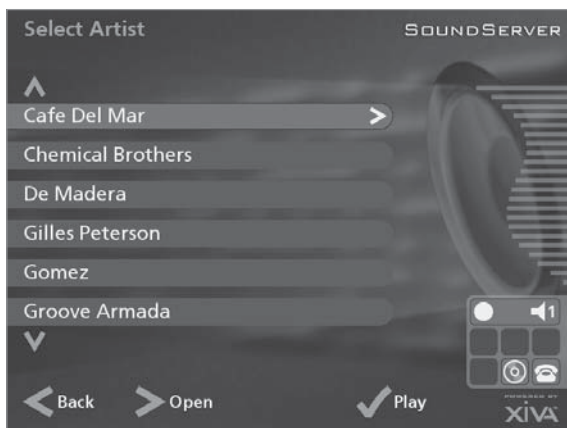

Either:

- Use the **▲** or **▼** keys if necessary to highlight the **Artists** option in the **Library** menu.
- Press the **✓Select** action key to confirm your selection.

or:

- Press the **ARTIST** key on your SoundServer remote control.

The front panel display and TV screen both display the artists available in your library:

Artists are displayed in alphabetical order.

- Press the **▲** or **▼** keys to step between artists, or press the appropriate letter on your remote control to jump directly to the item in the list beginning with that letter.

To play all albums by the selected artist

- Press the **✓Play** key to begin playback.

To play a particular album by the selected artist

- Press the **>Open** key to display all the available albums by the selected artist.
- Use the **▲** or **▼** keys to step between albums.

Either:

- Press the **✓Play** action key to play the currently selected album.

Or:

- Press the **>Open** key again to select a track from within this album.

Or:

- Press the **<** key to return to browsing by artist.

To browse the library by genre

Either:

- Use the **▲** or **▼** keys if necessary to highlight the **Genres** option in the **Library** menu.
- Press the **✓Select** action key to confirm your selection.

or:

- Press the **GENRE** key on your SoundServer remote control.

The front panel and TV screen both display the genres available in your library:

- Press the **▲** or **▼** keys to step between genres.

To play all albums in a selected genre

- Press the **✓Play** key to begin playback.

To play a particular album from the selected genre

- Press the **>Open** key to display all the available albums in the selected genre.
- Use the **▲** or **▼** keys to step between albums.

Either:

- Press the **✓Play** action key to play the currently selected album.

Or:

- Press the **>Open** key again to select a track from within this album.

Or:

- Press the **<** key to return to browsing by genre.

To Browse the library by playlist

Playlists allow you to create your own selections of tracks and save them with a name of your choice such as *Party Music*. For more information about creating a playlist see **Creating a new Playlist** p.31.

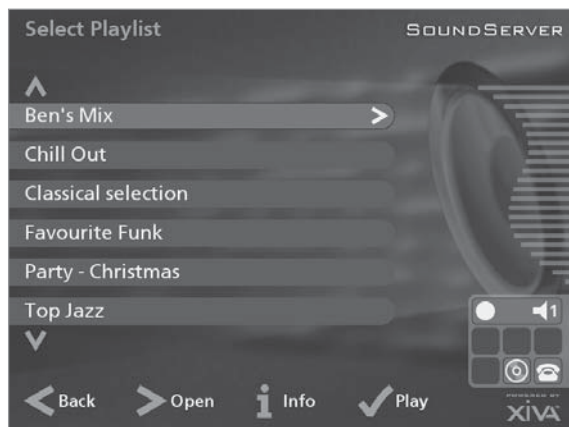

Either:

- Use the **^** or **v** keys if necessary to highlight the **Playlists** option in the **Library** menu.
- Press the **✓Select** action key to confirm your selection.

or:

- Press the **PLAYLIST** key on your SoundServer remote control.

The front panel and TV screen both display the Playlists available in your library:

Note: If you have not yet created any playlists the list will be empty.

- Press the **^** or **v** keys to step between playlists, or press the appropriate letter on your SoundServer remote control to jump directly to the item in the list beginning with that letter.
- Press the **✓Play** key to begin playback.

Selecting items directly using your SoundServer remote control.

You can select an album, artist, genre or playlist directly by the first letter of its title using the alphanumeric keypad on your SoundServer remote control.

To select an album, artist, genre or playlist by name

- Display the appropriate library menu for the item you want to find (e.g. **Select Artist** menu).
- Press the alphanumeric keypad key corresponding to the *first* letter of the item you want to select.

For example to find the artist *Santessa* press the **ARTIST** key to display the **Select Artist** menu, then press the **7** key four times because S is the fourth letter on the **7** key. The front panel and TV screen show the first artist beginning with the letter S.

If there are several artists beginning with the letter S press the **v** key to step through until you find the artist you are looking for.

To select a track by number

- Display the list of tracks in the album or playlist.
- Press the key on the alphanumeric keypad corresponding to the track number you want to select.

Selecting an album by number

Each album you have recorded onto the Hard Disk of your SoundServer is allocated a sequence number, from zero upwards. If you know the number of the album you want to listen to you can select it directly by number using the alphanumeric keys on your SoundServer remote control.

- Press the **ALBUM** button to display the albums in your library.
- Press the **0** key followed by the number of the album.

For example, to select album 27 press **ALBUM,0,2,7**.

The front panel displays:

- Press the **iOK** action key to finish entering the album number.
- Press the **✓Play** action key once again to begin playing the album.

PLAYING MUSIC FROM A CD

Your SoundServer allows you to play a CD directly without recording it to the Hard Disk first.

To play a disc:

- Press the **OPEN/CLOSE** key on the front panel to open the CD tray.
- Place a CD in the tray with the label side facing upwards.
- Push the **OPEN/CLOSE** key on the front panel.

The following prompt is automatically displayed:

Alternatively if you already have a CD in the tray select the **CD** option from the **Main Menu**.

- Press the **✓Play** action key to begin playing the CD.

PLAYBACK INFORMATION

The output screen

Whenever you select an item for playback the following screen is displayed:

The front panel displays:

1. Indicates the title of the album.
2. Indicates the title of the artist.
3. Indicates the name of the track currently playing.
4. Displays either track time or time remaining for the current track.
5. Indicates that random playback is enabled.
6. Indicates that repeat playback is enabled.
7. Indicates that the unit is playing from an item in the Hard Disk library.

You can display the output screen at any time by pressing the **Output** key. The output key may also be used to select a different output on the SoundServer; for more information see the chapter called **Using your SoundServer in a multiroom system** p.36.

To change the displayed information

You can choose what information is displayed on the TV screen and front panel display whilst playing;

- Press the **✓Display** action key to step between the following four options:

Track name, track number, and elapsed time for the current track:

Track name, track number, and time remaining for the current track:

Album name and track name:

Artist name and track name:

CONTROLLING PLAYBACK

Whether you are playing music from the library or directly from the CD you can pause, stop and resume playback as well as seek and skip tracks at any time.

To pause play

- Press the **II** key on the front panel or your SoundServer remote control.

To stop play

- Press the **■** key on the front panel or your SoundServer remote control.

To resume play

- Press the **▶** key on the front panel or your SoundServer remote control.

To skip to the next or previous track

- Press the **◀** or **▶** key on the front panel or your SoundServer remote control.

The front panel display shows the number of each track as you skip between them.

To seek within a track

- Hold down the **◀** or **▶** key on the front panel or your SoundServer remote control.

Play resumes from the new position when you release the key.

Random and repeat playback

Your SoundServer lets you play albums, artists, genres or playlists in a random order to add variety to your music. You can also play a selection repeatedly.

To randomise the current selection

- Press the **⇄** key on your SoundServer remote control.

Press the **⇄** key again to disable random playback.

To repeat the current selection

- Press the **↺** key on your SoundServer remote control.

Press the **↺** key again to disable repeat playback.

The front panel and TV screen both indicate that random and repeat are enabled.

ORGANISING YOUR MUSIC COLLECTION

This chapter describes the features built into your SoundServer to help you organise the music in your music library, including information about creating playlists of your favourite tracks, deleting albums or tracks you no longer want to store, and naming albums, tracks, and artists.

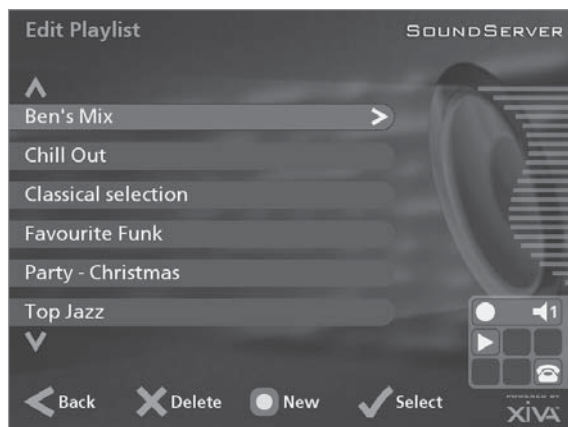

PLAYLISTS

Your SoundServer allows you to create your own selections of tracks, called playlists, and identify them with a name of your choice. For example, you could select your favourite party tracks from a number of different albums and include them in a playlist called *Party Music*. You can then play your selection simply by choosing the appropriate playlist from the **Select Playlist** menu.

Creating a new playlist

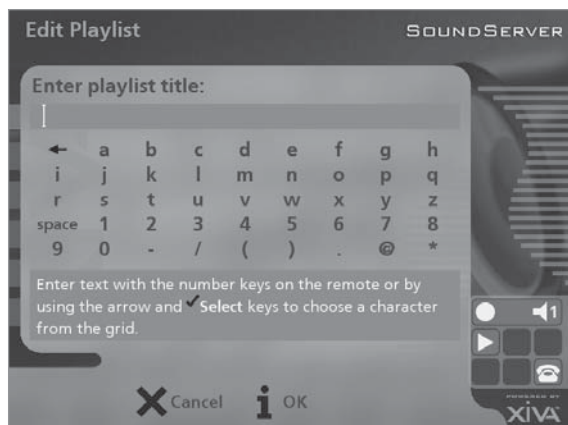

- Display the **Main Menu** by pressing the **Menu** key on your SoundServer remote control.
- Press the **^** or **v** key to highlight the **Library** option and press the **✓Select** action key.
- Press the **^** or **v** key to highlight the **Edit Playlists** option and press the **✓Select** action key.

The existing playlists will be displayed:

If you have not previously created a playlist this list will be empty.

- Press the **□ New** key to create a new playlist.
- The following menu then allows you to enter a name for the playlist:

- Enter a name for the playlist using the alphanumeric keys on your SoundServer remote control or using the **grid**.

For more information about entering names see the chapter called **Entering and editing names**, p.33.

- Press the **i OK** action key to confirm the name you have entered.

To select items for a playlist

- Press the **^** or **v** key to highlight the **Edit Tracks** option and press the **✓Select** action key.

You will then be prompted to select the items that you want to include in the playlist:

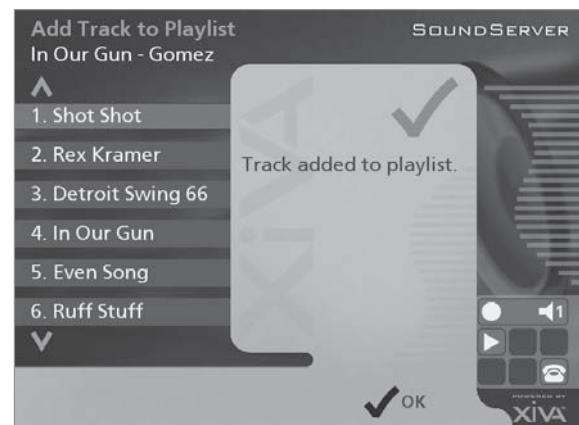

- Press the **□ Add** action key.

The **Add Music Menu** then lets you browse through the music library to select the first item you want to add to the playlist.

You can add whole albums, complete genres, all the albums by a selected artist, another playlist, or individual tracks. For more information on browsing the music library refer to **Playing Music from the Library** p.27.

When you have located the album, genre, artist, playlist or track you want to add:

- Press the **✓Add** action key to add it to the playlist.

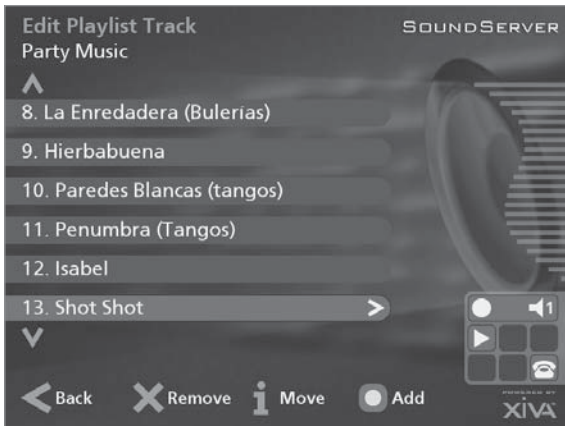

- Press the **✓OK** action key to continue.

When you have finished compiling the playlist:

- Press the **□ Done** action key to finish adding tracks.
- Press **✓OK** to confirm your action.

The tracks you have added will be shown in the playlist:

Editing a Playlist

You can change a playlist at any stage by adding items, deleting tracks, or changing position of tracks in the playlist.

To add items to a playlist

Either:

- Select the playlist you want to change from the **Select Playlist** menu in the library.
- Press the **i Info** action key to display the **Playlist Information** menu.
- Use the **^** or **v** keys to highlight the **Edit tracks** option and press the **✓ Select** action key.

Or:

- Select **Edit Playlists** from the **Library** menu and highlight the playlist you want to change.
- Press the **✓ Select** action key to open the playlist for editing.
- Use the **^** or **v** keys to highlight the **Edit tracks** option and press the **✓ Select** action key.

Once you have selected the appropriate playlist:

- Press the **□ Add** action key to add new tracks, and locate the item you want to add by browsing through the music library.

To remove a track from a playlist.

- Open the playlist as previously described.
- Press the **^** or **v** keys to highlight the track you want to remove.
- Press the **✕ Remove** action key to remove the track.
- Press the **✓ Remove** action key to confirm your choice.

To change the position of a track within a playlist.

- Open the playlist as previously described.
- Press the **^** or **v** keys to highlight the track you want to change.
- Press the **i Move** action key to move the track.
- Press the **^** or **v** keys to move the track up or down as required.
- Press the **✓ Store** key to confirm the new track position.

ALBUMS

Your SoundServer labels the albums, artists and tracks in your music library with names which identify the track you are listening to, and these help you locate items when you are browsing through the library.

If you have an Internet connection, your SoundServer reads the CD information automatically from the Gracenote CDDB Music Recognition Service. You can edit these names at any stage to suit your own preferences.

To edit album information

- Display the **Main Menu** by pressing the **≡ Menu** key on your SoundServer remote control.
- Press the **^** or **v** key to highlight the **Library** option and press the **✓ Select** action key.

Either:

- Press the **^** or **v** key to highlight the **Edit albums** option and press the **✓ Select** action key.
- Select the album you want to edit and press the **✓ Select** action key.

Or:

- Press the **^** or **v** key to highlight the **Albums** option and press the **✓ Select** action key.
- Select the album you want to edit and press the **i Info** action key.

The following menu allows you to choose information to edit:

- Select the item you want to edit and press the **i Edit** action key.
- See the following section called **Entering and Editing Names** to enter a new name.

Deleting albums, tracks or playlists

You can delete albums, tracks or playlists you no longer want from your SoundServer library.

- Display the **Main Menu** by pressing the **Menu** key on your SoundServer remote control.
- Press the **^** or **v** key to highlight the **Library** option and press the **✓Select** action key.
- Press the **^** or **v** key to highlight either the **Edit Playlists** or **Edit Albums** option and press the **✓Select** action key.
- Locate the album, playlist or track you want to delete.
- Press the **✕Delete** action key to delete it.

- If you are sure you want to delete the item, press the **✓Delete** action key again to complete the operation.

Note: This operation will permanently remove information from your Hard Disk; you will need to re-record the album if you delete tracks or albums accidentally. However, deleting a playlist does not remove any music from the Hard Disk - the original albums are unaffected.

ENTERING AND EDITING NAMES

You can enter a new name or edit an existing name on your SoundServer using either of the following methods:

To enter text using the alphanumeric keypad

- Press the **>** or **<** keys to move the cursor to the required position.
- Use the keys on the alphanumeric keypad to enter a letter.

For example to enter **S** press the **7** key four times, because **S** is the fourth letter on the **7** key.

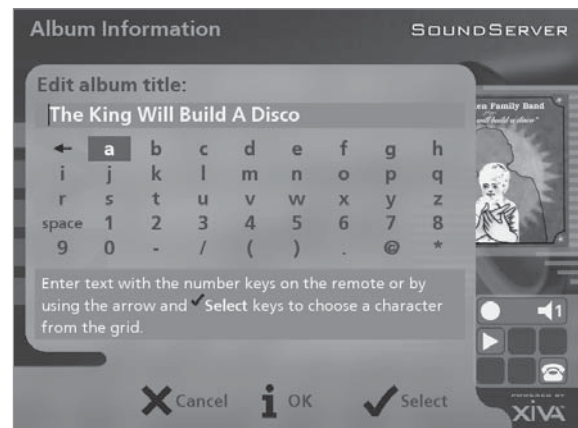

- Press the **DELETE** key on your SoundServer remote control to delete letters.
- Press the **CAPS** key on either the front panel or your SoundServer remote control to switch between upper-case and lower-case letters.

To select letters from a grid

Alternatively, the **Grid** option provides a convenient way of selecting letters from a grid:

- Press the **v** key to move the cursor into the grid area.

The currently selected letter is highlighted:

- Use the **>**, **<**, **^** or **v** keys to move the cursor and press the **✓Select** action key to enter each letter.
- Use the **CAPS** key on either the front panel or the SoundServer remote to switch between upper and lower case letters.

If at any time you need to enter text in a different part of the text field, or you want to return to entering text using the alphanumeric keypad:

- Press the **^** key repeatedly until the cursor returns to the text field.

Finally, when you have finished entering the name:

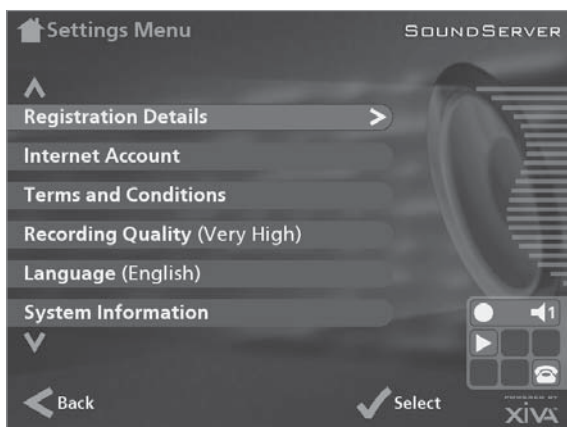

- Press the **iOK** action key.

ADVANCED SETTINGS

This chapter describes the advanced settings that you can access from your SoundServer's **Settings Menu**. These settings are configured automatically for you when you register your SoundServer, and you should not normally need to alter them unless you want to change the configuration of your system.

To display the Settings Menu

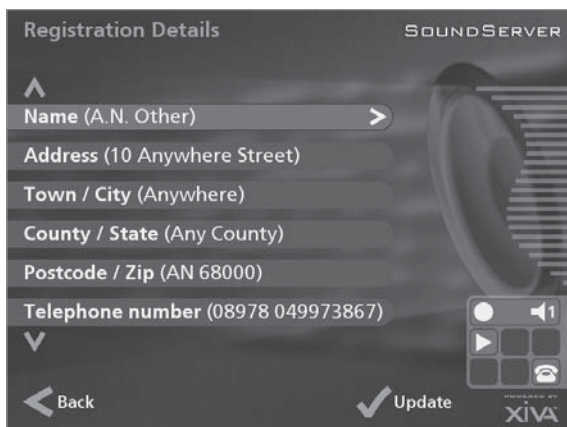

- Display the Main Menu by pressing the **Menu** key on your SoundServer remote control.
- Press the **^** or **v** key to highlight the **Settings** option on the **Main Menu**.
- Press the **✓ Select** action key to display the **Settings** menu:

The following sections describes each of the options on the **Settings** menu.

Registration Details

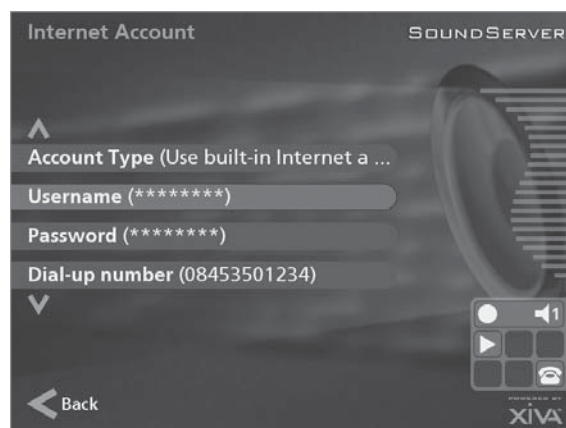

Displays the registration details you entered when you registered your SoundServer, and allows you to edit them:

If you change any of these details you will be given the opportunity to re-transmit your updated registration information.

Internet Account

Displays your Internet account details and allows you to edit them:

If you chose the **Use Built-in Internet Account** option when registering your SoundServer, the Internet account details were set up automatically for you.

Terms and Conditions

Displays the sequence of terms and conditions screens that were displayed during registration, and allows you to decline or accept the following options:

- Whether you want to receive information on other Imerge products and services.
- Whether you want to receive information about music and other related products from reputable organisations.

If you change your acceptance of any of these options you should re-register to transmit your new preferences.

Default Recording Quality

Allows you to specify the recording quality used when you record music using the **Auto** record option:

For each quality setting the screen shows the number of hours of recording time available at that setting.

Language

Allows you to select the language for the TV user interface - languages available are English, French, German, Italian, and Spanish.

System Information

Shows the serial number, production date, and software version number of your SoundServer. You may need to quote these if you contact Imerge for technical support.

System Settings

Provides a series of menus to allow you to change the hardware configuration on your SoundServer:

The following table summarises the settings available on each of the **System Settings** menus:

| Option | Description |
|---------------------|---|
| Network Mode | Specifies whether your SoundServer connects to the Internet via the built-in modem or using the Ethernet port. |
| Modem Settings | Allows you to specify the following settings when connecting via the built-in modem: number of connection retries, the Assigned IP address and the Server IP address, the modem initialisation string, and whether to use tone or pulse dialling. |
| Ethernet Settings | Allows you to specify the following settings when connecting via the Ethernet port: IP address mode, IP address, IP Mask, Gateway, IP DNS1, IP DNS2. |
| Controller Settings | Specifies the communication speed for the Controller port on the rear of the unit. |
| Video settings | Specifies whether the unit is configured for PAL or NTSC use. |
| Remote Diagnostics | Select this option if instructed to set up your modem to receive incoming calls from technical support staff. |

Output Settings

The volume setting of each individual output of the SoundServer may be configured as either **variable** or **fixed**. Any changes made to the output settings will only affect the currently selected output (shown on the status icons).

If the volume setting is set to **fixed** the output level is set to maximum and the balance is set to the central position. In this mode the and **Mute** keys on the SoundServer remote control do nothing*.

If the volume setting is set to **variable** the output level can be altered at any time using the and **Mute** keys on the SoundServer remote control. A **Balance** option is also available from the **Volume Settings** menu which allows you to adjust the left/right balance.

***Note:** The SoundServer remote control can be configured so that when the **HDD Audio** device is selected the and **Mute** keys operate the volume and mute controls on an amplifier. For more information see the chapter called **Configuring your remote to control other devices** p.19.

Upgrade Unit

Select this option when supplied with a XiVA software upgrade disk for your SoundServer.

USING YOUR SOUNDSERVER IN A MULTIROOM SYSTEM

The SoundServer is capable of playing different music in up to three rooms simultaneously. This chapter explains how the SoundServer can be integrated into a multiroom configuration and how users in different rooms can access music from the library.

In a multiroom environment control of the SoundServer can be classified into two different types:

- **User Interface Control** - remote control information is used to navigate the library on either the TV display or the front panel display. The TV display is also capable of automatically switching to controlling the appropriate output for your location as well as preventing other people from accessing the interface while you complete your music selection. More information about configuring your remote is given in the section opposite called **Remote Control use in a multiroom environment** and the section **SoundServer Status Icons** on p.22.
- **Direct Media Select** - selection of music from the library as well as playback control (play, pause, stop etc.) is made using simple infrared commands with no effect on the TV user interface. For example pressing:

Album, 0, 5, Play

will play album number 5, whilst:

Artist 7, 7, 7, 7, Play

will play the first artist beginning with the letter S (the Disc +/- keys then allow you to select the next or previous artist). In practice this method is more often used for controlling playback on a multiroom control system - for more information please contact your local dealer or refer to the website listed in the following **Getting help** section.

BASIC CONFIGURATION

The diagram below shows the SoundServer in a basic multiroom configuration. The connections required are as follows:

- **Video Out** is connected to an RF Video distribution system to allow the TV user interface to be viewed on all televisions around the home.
- Infrared remote control information is received at a separate receiver eye placed in each room - information from this device is then transmitted via the RF Video distribution system to the **IR Receiver** connection.
- **Analogue Out 1, 2, & 3** are each connected to the stereo input of an amplifier.

Note: if one of the amplifiers has a digital input the **Digital Out** (coaxial or optical) may be used in preference to analogue output 1.

REMOTE CONTROL USE IN A MULTIROOM SYSTEM

Your SoundServer remote control can be configured so that every button press indicates to the SoundServer which output is to be controlled. This means that whenever infrared is received by the SoundServer the TV display will automatically switch to controlling the appropriate output.

To configure the remote with a default output

- Press the **HDD Audio** and ☒ **Select** buttons simultaneously; hold them down for 1 second.

The **HDD Audio** button will remain lit for 20 seconds; the configuration process must be completed during this time.

- Enter the 3 digit code corresponding to the output you would like to control (valid configurations are listed in **Appendix A**). For example, to set output 2 as your default output press:

0, 0, 2

- Press the **HDD Audio** button again.

Basic Multiroom configuration

The **HDD Audio** button will blink twice to indicate that the configuration has been accepted. If the **HDD Audio** button does not blink twice begin the process again, taking care to enter the number correctly.

If the SoundServer is switched on during the configuration process the **Enter Standby?** prompt will appear once configuration is complete; pressing any navigation key on the remote should now cause the SoundServer to switch to the correct output. In the example above the status icons will display the following:

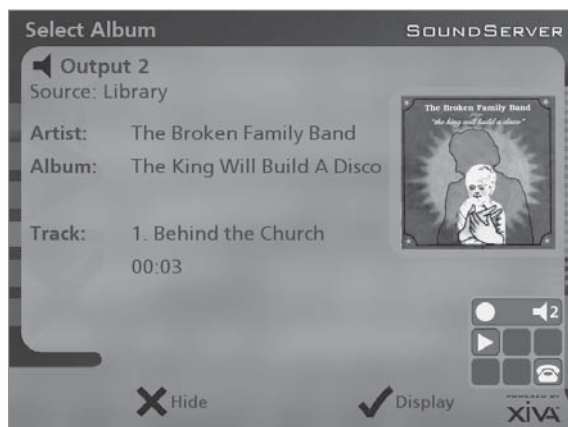

The number inside the circle indicates the default output of your remote. The bar to the right of this indicates how long the user has before the TV user interface is available for other users to access. The number to the right of this indicates which output this remote is currently controlling.

To change output using the remote control

The **Output** button on the SoundServer remote control allows you to display information about the music you are currently listening to. It can also be used to select another output to control as follows:

- Press the **Output** button on the SoundServer remote control.

The following screen is displayed:

The output screen indicates what is playing on the currently selected output.

- Press the **Output** button again to switch to the next output.
- Once the required output number is displayed, press the **Hide** key to hide the output display.

In the previous example the status icons would now show:

Any subsequent press on this remote will now control output 3.

Press the **Default o/p** button at any stage to return to controlling your default output. This button will also automatically display the **Library** menu.

Setting the output controlled from the front panel

You can set which output is controlled by the front panel controls as follows:

- Press the **Output** button on the SoundServer front panel.

The following screen is displayed:

The output screen indicates what is playing on the currently selected output.

- Press the **Output** button again to switch to the next output.
- Once the required output number is displayed, press the **Hide** key to hide the output display.

The next time a key is pressed on the front panel the user interface will automatically switch to controlling this output.

MULTIROOM CONTROL SYSTEMS

Your SoundServer is also compatible with a number of leading multiroom control systems. The **Controller** port on the rear of the system uses a versatile protocol called **XiVA-Link** which allows access to most of the SoundServer functions remotely.

For information on the **XiVA-Link** protocol as well as the latest information on supported systems please contact your local dealer or refer to the website listed in the following **Getting help** section.

GETTING HELP

Your SoundServer has been designed to provide years of trouble-free operation. If, however, you need technical assistance above and beyond what is covered in this user guide, we have established the following methods for continued support:

Your dealer

Your local SoundServer dealer has the best understanding of your particular system, product and needs and should therefore be your first point of contact. Specific guarantee and warranty coverage details may also be obtained from your dealer.

Imerge website

The Imerge website contains comprehensive technical information on your SoundServer as well as product updates. The website also has the most up-to-date information on how to contact Imerge directly.

www.imerge.co.uk/support

SoundServer product support

Our support helpdesks are available to assist our customers with fault diagnosis and to advise how to contact Imerge approved repair services. Our approved Service Centres have up-to-date training and will provide the highest level of service. Please be aware that music stored on your SoundServer may be lost during certain testing and repair procedures. We will endeavour to protect against loss but Imerge and our Service Centres will not be held responsible for loss of music in any product returned for service or repair. Contact your local dealer for further information on data backup services.

Please do not return your product directly to Imerge, as this will result in unnecessary delays in the repair process.

Should you have any questions which your dealer is unable to answer, please contact:

Imerge UK Helpdesk

Phone: +44 (0)870 0104860 (normal UK office hours)

Fax: +44 (0)1954 783601
